OXFORD AREA SCHOOL DISTRICT

It shall be the policy of the Oxford Area School District that parents or guardians be informed about the activities of their children in the school and that the reporting of student progress in school is a vital component of the total educational process. To this end, a system for the regular reporting of student progress to parents and guardians shall be developed and communicated.

The Superintendent of Schools shall develop a system of reporting to parents which encompasses both formal and informal components:

A. Formal communications include items such as progress reports, conferences arranged on prior notice either by the home or the school, dissemination of test scores, and evaluated student work.

B. Informal communications include such items as notes to parents, emails, telephone calls, home visits, informal conferences, and casual meetings.
