The Board recognizes the importance of establishing a comprehensive plan to guide the educational program and operation of the District. Participation by all segments of the school community is a critical element of such planning.

The Board shall develop and approve a Strategic Plan for the District based upon an analysis of internal and external needs and specifying priorities for actions and action plans. The plan shall be formulated in accordance with State regulations.

The Board shall ensure active participation by Board members, administrators, teachers, other District personnel, students, parents and representatives from business and the community.

The Board directs that the Strategic Plan be reviewed and revised during the third year of the six-year plan.

Prior to approval by the Board, the Strategic Plan, and any revisions, shall be made available for public inspection in the administrative offices and the public library until the next regular Board meeting.

The Superintendent shall be responsible for recommending the Strategic Plan to the Board and for submitting the plan to the State Department of Education.
