Whereas, Dr. David Guzick has served as our Chancellor for two years;

Whereas, he has provided steady leadership through challenging times at our institution;

Whereas, he has provided the leadership necessary to guide our SACSCOC site visit and LCME probationary status to successful outcomes;

Whereas, he has recruited outstanding scholars to our institution who have doubled our NIH grant receipts within the last nine months; and

Whereas, he encourages us all to “Aim High” because he believes in our potential, sometimes more than we believe in ourselves.
