

International Sharing School

School Trips 2026/2027

At International Sharing School, learning is extended beyond the School Campus.

Our School Trips Programme offers students a wide variety of experiences from Art and Culture, to Technology, Community Service, Sports and Adventure Expeditions.

All School Trips are carefully planned to ensure a great experience is had by all whilst also ensuring the high standards of safeguarding are maintained throughout.

Our School Trips Programme has been put together in such a way as to promote skills within the context of Innovation, Leadership and Entrepreneurship and will be remembered for a lifetime.

All information in this booklet provides parents an outline of the School Trips on offer at International Sharing School this academic year.

The School Trips will run dependent on reaching the minimum student numbers. All costs are provided as estimates and take into consideration transport, accommodation, teacher supervision and insurance.

Costs are subject to change when the trip is confirmed by the lead staff member and in some cases will be lower if the minimum number of students is exceeded.

School Trips

Discovering new interests and learning beyond school

In the following pages, you will find a full overview of the activities available at International Sharing School as part of our School Trips Programme.

These trips are not included in the school's tuition fees, and each one has its own dedicated summary outlining the schedule, location, associated costs, and other relevant information.

All registrations for the School Trips must be completed directly with the lead staff member for each trip.

Cambodia

Lead Staff Member: Alexandra Bochman

This 10-day trip offers students the chance to actively contribute to conservation efforts in a foreign country, working to preserve its natural beauty and biodiversity.

The experience also includes engaging with local communities, fostering cultural exchange and a deeper understanding of shared responsibility.
