Dear Parent/Guardian,

Each year, students learning English in our school and throughout our state take the WIDA ACCESS test. The test measures the English skills students use to engage in their classes.This past spring, Multilingual Learners (MLs) in grades kindergarten through twelfth grade participated in the administration of the ACCESS for MLs® language proficiency test. ACCESS provides a standardized measurement of academic language proficiency for MLs throughout the state of New Jersey, and in other states.The WIDA ACCESS test helps teachers understand if students continue to benefit from English language support services. To track your child's learning, teachers review both their schoolwork and their WIDA ACCESS test scores.

Your child's score report is for you to review and keep. To access it, please go into the Documents tab of Parent Portal and look for the document titled "2026-ACCESS ISR". If you do not have an account or are experiencing issues please contact **genesissupport@mtsd.us**. This report is for you to review and keep. You can use the information in the report to advocate for your child at school.

To assist you in understanding your child's score is the Interpretive Guide for Individual Student Reports, which provides information about your child's English Language Proficiency Level. The guides can be found on the district website on the Multilingual Learners page under **ACCESS 2.0**.

If you have any questions regarding this test, or the information that is being sent to you about how your child performed on this test, please contact your child's MLed teacher.
