Landfill Policy & Fee Schedule Update

Effective 7/10/2026

Policy

1. **All Residents** seeking to use the landfill/transfer station will be required to purchase a yearly **Resident Permit** which will give access to both the transfer station and landfill. Residents must show a vehicle registration with a Suffield address or proof of ownership of a residential property. Vehicle restrictions and additional fees may apply per Section 4. Any resident who does not have trash or recycling picked up at their residence may get a Household Trash Permit free of charge after filling out the Certification for Household Trash application. Nothing in this section shall inhibit any resident from accessing bulky waste.

2. **Contractors** doing work in Suffield will be required to purchase a yearly **Contractor Permit** to access the landfill and transfer station scale to weigh commercially generated waste. In order to purchase a Contractor permit, proof of legal business with an EIN number is mandatory. A building permit or other proof of Town jobsite is required prior to disposing of any materials. Additional fees will apply as listed in the Fee Schedule below. Persons owning property in Suffield but living out of state may purchase this permit for Brush, Logs, Leaves, Grass as well as anything under the Additional Fee Schedule.

3. All dual axle trailers are required to use the scale and pay the current rate per ton.
   All 1 ton dump trucks or larger are required to use the scale and pay the current rate per ton. This applies to both residents and contractors.

4. Residents who require an out of town family member or a visiting non-resident to help with disposals will be granted access upon providing proof of residency. This is to include when a resident has passed away and out of town family member or non-resident is helping with disposal of materials. Permit fee and all other applicable fees will apply.

5. Residents borrowing a vehicle that is not registered to them, that are unable to have a permit purchased for that vehicle (out of state, out of town registered) will be required to use the scale and pay the current scale rate per ton upon proof of residency.

6. Residents using rented vehicles (U-Haul, Penske, Home Depot, etc.) will be required to use the scale and pay the current rate per ton upon proof of residency.

7. Permit stickers and annual renewal stickers will be applied to the lower passenger side of the windshield by a Landfill employee.

8. ***The Landfill will be closed for all snow and ice events as Landfill employees plow and salt Town roads. Please check the Town website for any updates during winter months, or call ahead.**
