Dear Parent or Guardian:
As part of district- and state-wide efforts to meet individual student needs and improve student achievement, Moss Point School District works to consistently track your child's progress toward grade level goals, both academically and behaviorally. Interventions (extra support) will be provided as needed to all students who do not meet expected levels of achievement in reading, writing, math, and/or behavior. This system is called Response to Intervention (RTI).

Based on academic testing results, classroom performance, and/or teacher recommendation, your child has been identified as a student who may benefit from intervention services. The Teacher Support Team (TST) would like to invite you to a meeting regarding your child's progress in school. The TST's purpose is to review and consider all available information and to recommend additional educational strategies and interventions to further assist your child. We welcome your participation in the decision making process. The team will consider placement in:

Tier 2, best described as focused, supplemental, or small group instruction that your child will receive in addition to core curriculum instruction provided by the classroom teacher.

-OR-

Tier 3, best described as intensive interventions specifically designed to meet the individual needs of students.
