Exhibit A
Buford Elementary Painting Design

Scope of work:

Bid Documents Due: April 14, 2026 @ 1:30pm
Documents can be found on www.lennox.k12.ca.us

Removing/Replacing Art fixture:

- Relocate Buford school sign to the lower part of the building next to the school logo but centered.

- Remove the metal adult and children that is located on the top of the building and place 2 pieces of the artwork on the right and left side of the Buford sign.

Painting Scope:

- Using the color scheme options for Buford Elementary, create a cool design at the top of the main building over a solid color to highlight the school adding the name within the design.

- Touch up or repaint the bottom of the surface using the color from the color scheme. A sample of how you could use a solid color on top and add a design with the school's name is attached for a reference point.

- **Please Note: The sample reference shows painting of the entire top of building. That is not a requirement, if your design falls under the cupcca threshold and you want to paint the entire side with colors from the color scheme and get rid of the lighter color adding some designs, it is up to your discretion. Principal & Cabinet will choose the best rendering with a feasible price.**

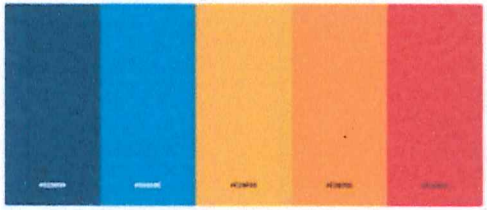

Paint:

- The district uses Dunn Edwards Paint Flat Exterior Paint

WORK BY OTHERS

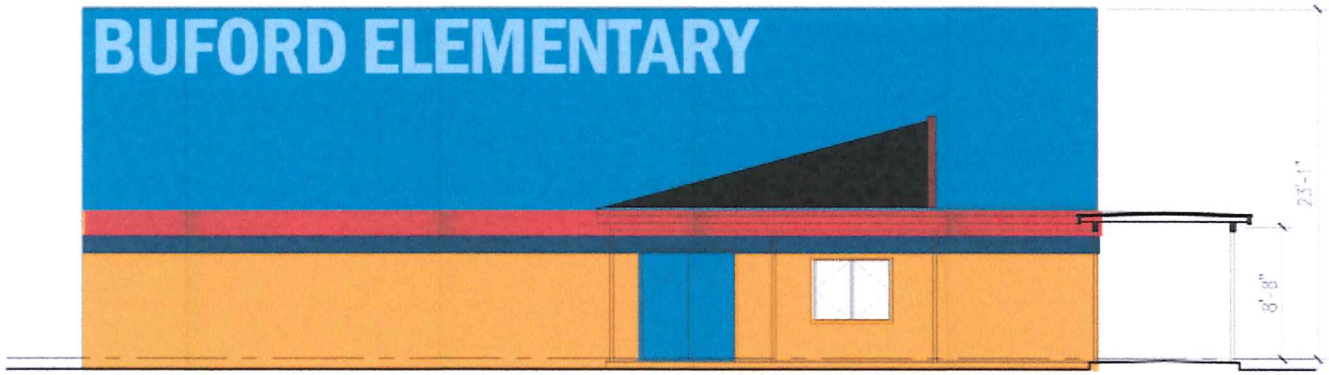

ASTRO TURF- WORK TO BE COMPLETED BY OTHERS
PLEASE HAVE YOUR TURF CONTRACTOR TO MEASURE AND PROVIDE YOU WITH THE SPEC'S
