Disclosure of all other student data or student record information maintained is governed by the Family Educational Rights and Privacy Act ("FERPA").

Annual written notice presented to parents and legal guardians of district students shall: 1) require parent or guardian's signature; and 2) shall state student data submitted to and maintained by a statewide longitudinal data system only be disclosed as follows.

Student data may be disclosed to:

- The authorized personnel of an educational agency or the state board of regents who require disclosures to perform assigned duties; and
- The student and the parent or legal guardian of the student provided the data pertains solely to the student.

Student data may be disclosed to authorized personnel of any state agency, or to a service provider of a state agency, educational agency, or school performing instruction, assessment, or longitudinal reporting, provided a data-sharing agreement between the educational agency and other state agency or service provider provides the following:

- purpose, scope, and duration of the data-sharing agreement;
- recipient of student data use such information solely for the purposes specified in agreement;
- recipient shall comply with data access, use, and security restrictions specifically described in agreement; and
- student data shall be destroyed when no longer necessary for purposes of the data-sharing agreement or upon expiration of the agreement, whichever occurs first.

*A service provider engaged to perform a function of instruction may be allowed to retain student transcripts as required by applicable laws and rules and regulations. Destruction shall comply with the NISTSP800-88 standards of data destruction.

Unless an adult student or parent or guardian of a minor student provides written consent to disclose personally identifiable student data, student data may only be disclosed to a governmental entity not specified above or any public or private audit and evaluation or research organization if the data is aggregate data. "Aggregate data" means data collected or reported at the group, cohort, or institutional level and which contains no personally identifiable student data.

The district may disclose:

- Student directory information when necessary and the student's parent or legal guardian has consented in writing;
- directory information to an enhancement vendor providing photography services, class ring services, yearbook publishing services, memorabilia services, or similar services;
- any information requiring disclosure pursuant to state statutes;
- student data pursuant to any lawful subpoena or court order directing such disclosure; and

Student Data Security Breach

If there is a security breach or unauthorized disclosure of student data or personally identifiable information of any student submitted to or maintained on a statewide student longitudinal data system, each affected student or the parent or legal guardian of the student, if a minor, shall be immediately notified, and an investigation into the causes and consequences of the breach or unauthorized disclosure will be conducted.

Biometric Data

The district shall not collect biometric data from a student or use any device or mechanism to assess a student's physiological or emotional state, unless the adult student or the parent or legal guardian of the minor student consents in writing. "Biometric data" includes measurable biological or behavioral characteristics that can be used for automated recognition of an individual, such as fingerprints, retina and iris patterns, voiceprints, DNA sequence, facial characteristics, and handwriting.

Nothing in this policy shall prohibit the collection of audio voice recordings, facial expression information, and student handwriting for:

- provision of counseling or psychological services,
- conducting student threat assessments,
- completing student disciplinary investigations or hearings, or
- conducting child abuse investigations.

- the parent or guardian is notified in writing not more than four months in advance of the administration of such test, questionnaire, survey, or examination that such is to be administered; and
- the parent or guardian of the student gives consent through a written or electronic signature or, in the event of an immediate need, gives verbal consent for the student to participate.

Advance notification to a parent or guardian must include:

- A copy of the test, questionnaire, survey, or examination that is to be administered;
- Information on how the parent or guardian may provide written consent to authorize the student to take such test, questionnaire, survey, or examination;
- The name of the company or entity that produces or provides the test, questionnaire, survey, or examination to the school; and
- Whether the school will receive or maintain the resulting data and an explanation of how the school intends to use and maintain such data.

For written consent to be accepted, timely notice in compliance with the requirements of this policy must be provided, and the parent or guardian must have had an opportunity to review the information contained in the notice. Written consent must be provided separately for each individual test, questionnaire, survey, or examination that is to be administered. Prior to administering any such test, questionnaire, survey, or examination, a copy of it must be posted and maintained on the district's website.

A student has the right to refuse to take any test, questionnaire, survey, or examination as described herein at any time, regardless of receipt of parent or guardian consent to participate. Prior to administering any such test, questionnaire, survey, or examination, each student shall be informed that such student has the right to refuse to take it and that the student will not suffer any adverse consequences based on refusal to participate.

No personally identifiable student data shall be collected through any such test, questionnaire, survey, or examination.

Except as otherwise provided in this policy, the provisions of this subsection shall apply to any test, questionnaire, survey, or examination as described herein that is administered or proposed to be administered to any student by any employee of a school district, including, but not limited to, any administrator, teacher, counselor, social worker, psychologist, or nurse.

If, however, any district employee becomes aware that a student may be at risk of suicide by a credible report from the student, the student's peers, or another school district employee, the school personnel who are designated to administer a suicide risk assessment or screening tool may administer such risk assessment or screening tool in accordance with the provisions of this subsection to determine whether the student could be at risk for suicide. Such designated school personnel may include, but is not limited to, any administrator, teacher, counselor, social worker, psychologist, or nurse. Prior to the administration of any such risk assessment or screening tool, the designated staff member shall verbally notify the parent or guardian before the administration of such risk assessment or screening tool and obtain the consent of the parent or guardian.

If the designated staff member is unable to verbally notify the parent or guardian of the student and obtain consent after reasonable attempts to do so, the designated staff member may administer the risk assessment or screening tool without such consent. If a risk assessment or screening tool is administered without the parent or guardian's consent, as soon as contact with the parent or guardian is made, the designated staff member shall notify the parent or guardian of the administration of such assessment or screening tool and provide to the parent or guardian all information obtained from the risk assessment or screening tool administered to the student.

Textbooks and instructional materials shall support the district's instructional program. Media center materials shall support and supplement the curriculum, promote wise use of leisure time, develop literary discrimination and appreciation, and encourage students to become productive citizens.

Selection Criteria: Textbooks and Instructional Materials

Textbooks and instructional materials shall provide:

An effective education for all students;

Factual knowledge, literary appreciation, aesthetic values, and ethical standards;

Practice for students to develop abilities in critical thinking, communication, mathematics, and science skill;

Information which helps students develop an appreciation of American cultural, ethnic and racial diversity, and balanced views concerning international, national, state, and local issues and problems; and

Sufficient flexibility for meeting the special needs of individuals and groups.

The superintendent shall develop selection procedures which meet the above criteria, which shall include a review of available material by appropriate staff members.

Selection Criteria: Media Center Materials

Materials shall be chosen for accuracy, artistic quality, format, and authoritativeness.

Materials shall be chosen on various reading levels presenting different points of view, including current issues.

Books and other media materials shall be evaluated before purchase, either through direct examination or by using reputable, unbiased, professionally prepared selection tools.

Challenges of Materials

Any student, parent, or legal guardian of a student currently enrolled in the district having a complaint about textbooks, media center, or other instructional materials shall meet with the teacher, media specialist, or principal. If the concern is addressed to a teacher or media specialist, they shall report the matter to the principal. If the matter cannot be resolved, the principal shall notify the superintendent and ask the complainant to complete a request for review form which is available through building principals or at the district office. After receiving the completed form, the superintendent shall review and consider the request.

If the issue outlined in the request is not resolved after review by the superintendent, the requestor may seek review by the board. If the board chooses to consider the request, it shall forward all appropriate written materials to a review committee.

Composition of Review Committee

When a review committee is established to handle requests for review concerning textbooks, media center, or instructional materials, the review committee shall be composed of:

The building principal, library media specialist, two subject area specialists, two community members, and one student. If the request for review proposes that the material is inappropriate for minors, the student representative may be left off the committee. The superintendent shall be responsible for appointing review committee members, unless otherwise determined by the board on a case-by-case basis.

Purview of Review Committee

The review committee shall examine and evaluate the material as a whole; consider the district's policy, procedures, and philosophy for selection of textbook, instruction materials, and media center materials; weigh strengths and weaknesses; and form opinions based upon the selection criteria.

Written Report

Within 30 days of receiving access to the challenged materials, the review committee shall review the material and prepare a written report containing conclusions and recommendations for the board of education.

If the board receives simultaneous challenges of multiple material or if circumstances render the 30-day timeline impracticable, the board may extend the committee's deadline to complete its review.

No reviews will be conducted during summer break or when school is not in session for one week or longer. The timeline for any review shall be tolled during such breaks.

Board Review and Action

The board shall review the recommendation of the review committee within 30 days of receipt thereof and may accept the review committee's recommendation, reject the review committee's recommendation, or make its own determination regarding the challenged book or material.

The decision of the board is final.

Removing Challenged Materials

Challenged materials may be removed from use during the review period at the discretion of the superintendent.

Impact of Simultaneous Requests

If more than one request for review is received simultaneously, or, if one or more requests for review is received while another review is pending, timelines established in this policy may be extended by the superintendent or the board to allow the requests to be processed in turn. When more than one request for review is received on the same book or material, such requests may be consolidated to reduce redundancy in review at any stage of this process.

The form shall include the nature of the trip, departure time, expected return time, name of sponsor(s) and mode of travel. The form shall also include a space where a parent may ask that a child be excused and the reasons for the excuse.

Non-Sanctioned Field Trips

Non-sanctioned field trips organized by employees acting as independent contractors/agents involving students on a volunteer, self-supporting basis are not approved by the board and are not considered a part of the curriculum. Total responsibility for privately planned field trips or tours rests with the individual(s) and agency sponsoring them. The district assumes no legal or financial responsibilities for non-sanctioned field trips.

Every attempt should be made to schedule non-board approved trips during weekends and/or vacation periods. If travel arrangements necessitate that some school days are missed, normal procedures for staff and students' absences must be followed.

If recruitment of students is sought through the schools(s), the request for recruitment shall be made in accordance with those of private citizens. Recruitment efforts may not occur during class time or the employee's workday.

Performance-Based Credits **IIA**

A student may earn credits towards high school graduation by demonstrating mastery of the course outcomes through a performance instrument. The standards for designing and passing the performance instrument shall be set sufficiently high to ensure credits earned by such means shall be equivalent to those offered in the framework of the Carnegie unit.

A written request to "test out" of a class must be submitted prior to the beginning of each semester/year. A student may not request to "test out" of a class in which he or she is currently enrolled or has been enrolled.

The request is to be evaluated within 30 school days by a review committee composed of: a building administrator, a school counselor, a faculty member appointed by the principal, and the students' parent(s) or guardian(s).

If the request is approved, the course instructor will have 30 school days to design a performance instrument that reflects mastery of all course outcomes. Commercially available instruments may be used if they cover all course objectives. A performance instrument shall be approved by the principal. The principal, in consultation with the instructor, will determine the setting and the timelines for the administration of the instrument, as well as the criteria for successful completion of those tasks.

The student has 10 school days in which those designated tasks developed by the teacher and approved by the administration must be performed.

Credit for such classes shall be awarded only on a pass/fail basis. Students will be allowed only one opportunity to "test out" of any particular

class. It will not be the responsibility of the school or the instructor to provide instructional and/or review time for the student. However, the outcomes, as noted in the district curriculum guide, and class syllabus will be made available.

Graduation Credit Through Integrated Coursework

The board may allow graduation credit for integrated academic or career and technical education course work. The teacher awarding academic credit shall be fully licensed and may work collaboratively with another instructor to develop a course plan for instruction. The teacher shall monitor the student's progress and level of achievement. The plan will be reviewed periodically to maintain rigor and relevance.

Credit Through Alternative Educational Opportunities

Students enrolled in grades six through twelve may earn course credits through alternative educational opportunities with sponsoring entities. For the purposes of this policy, terms have the following meanings.

- "Alternative educational opportunity" means instruction that primarily occurs outside the classroom with a sponsoring entity.
- "Sponsoring entity" means a business, not-for-profit organization, nonprofit organization, trade association, parent of a student, teacher, or administrator that partners with a school district to provide an alternative educational opportunity to students.

Eligibility Requirements for Sponsoring Entities

The board may accept a proposal from a sponsoring entity if the alternative educational opportunity provided by the sponsoring entity provides an additional learning opportunity for students through a work-based, pre-apprenticeship, apprenticeship, internship, industry certification, or community program; and either the proposal is approved by the state board of education as an alternative educational opportunity, or it complies with the requirements of this policy regarding such opportunities.

Requirements for the Provision of Alternative Educational Opportunities

Each approved alternative educational opportunity with a sponsoring entity shall be managed and directed by a licensed teacher employed by the school district. The teacher may work collaboratively with the principal, the sponsoring entity, or another teacher to develop a course plan for instruction with learning outcomes identified. The teacher shall monitor the student's progress and level of achievement based on this plan. The plan will be reviewed periodically and adjusted as needed to promote a quality learning experience. The principal shall provide a report annually, or as requested, to the superintendent evaluating the additional educational opportunity provided to participating students and making recommendations to the superintendent on continuation, termination, or modification of the opportunity.

Processes for Submitting a Proposal for an Additional Educational Opportunity

Sponsoring entities wishing to partner with the district to provide additional educational opportunities to students, shall submit a proposal to the superintendent outlining the contact information and credentials of the person(s) that would be working directly with the student participants in this experience; educational goals for the partnership; any time, place, manner, and number of participant restrictions regarding how the learning opportunity would be provided; proposed learning outcomes for participating students; and any details regarding prerequisite coursework, certification, or experience a candidate for this experience should possess prior to entering the program.

Criteria for Evaluating Such Proposals

Prior to making a recommendation to the board on whether the district should partner with or continue to partner with a sponsoring entity, the superintendent shall review the proposed alternative educational opportunity in comparison with the board approved curriculum and goals, consulting other

staff members as necessary in that process. Before recommending action to continue such partnership from year-to-year, the superintendent may seek and shall review any available reports on the opportunity provided by the principal in accordance with this policy.

The board should consider the recommendation of the superintendent in determining whether to partner with or continue partnership with a sponsoring entity. In order for the board to partner with a sponsoring entity and to maintain such partnership, the sponsoring entity must first meet the eligibility requirements as outlined in this policy.

Additional considerations weighing into the decision to partner with a sponsoring entity may include, but may not be limited to: whether the learning experience meets the curricular, rigor, and relevance needs of the student and/or the district; qualifications, experience, reputation, and responsibility of the sponsoring entity and/or individuals that would be working directly with students; related costs for the district, regarding the provision of transportation, equipment, human resources to monitor the experience, etc.; space and time constraints if the experience will be provided in district facilities; student and staff safety; the need for and/or availability of insurance coverage, as applicable; effect on other district course offerings and activities; and student interest. As the welfare of students is of paramount importance to the board, the district reserves the right to complete background checks on any individuals working directly with students on behalf of the sponsoring entity and to base decisions on entering or exiting such a partnership, in whole or in part, on the results thereof.

Determining the Course Credit that May Be Earned Through These Opportunities

The superintendent may develop procedures for review of the experience and the award of credit in accordance with board approved curriculum. The superintendent may award credit for the experience as deemed appropriate for district elective offerings based on meeting local standards for those offerings. In order for any alternative educational experience to be approved for credit in a state-required course, such experience must meet all applicable statutory, regulatory, and Kansas State Board of Education approved standards for award of such credit.

State Reporting Requirements

The superintendent or the superintendent's designee shall make reports to the Kansas State Department of Education as required thereby. Such reports will include information regarding the alternative educational opportunities offered at each school, the names of sponsoring entities, the number of students participating in such opportunities, and credits earned.

The school district has the right to make the determination of what constitutes inappropriate use and use as an educational tool. Inappropriate use may lead to any disciplinary and/or legal action, up to and including suspension and/or expulsion of district students and suspension and/or termination of employees. Law enforcement shall be notified of inappropriate use which may constitute a violation of Federal or state law, and such use may result in criminal prosecution.

    a. Monitoring and managing the site to promote safe and acceptable use and compliance with district policies; and

All employees shall be subject to disciplinary action if their conduct relating to use of technology or online resources violates this policy or other applicable board policy, statutory, or regulatory provisions governing employee conduct or the protection of student record information; or if it impairs the staff member's job performance or effectiveness in the work setting. No religious belief or non-belief shall be promoted or disparaged by the district or its employees. Students and staff should be tolerant of each other's religious views. Students and staff members may be excused from participating in practices contrary to their religious beliefs unless there are clear educational issues of overriding concern which prevent it.

In compliance with this policy, religious themes may be presented in the curriculum and as part of school activities. Music, art, literature and drama having a religious theme or basis are permitted as part of the curriculum or as part of a school activity if they are presented in a balanced and objective manner and are a traditional part of the cultural and religious tradition of a particular holiday or field of study. Religious Objections to Activities **IKDA**

(See IKD)

A parent or guardian (or a student eighteen years of age or older) may request that the student be excused from participating in activities for religious reasons. The parent, guardian, or adult student must complete the district opt-out form for religious objections, stating the specific activity, the portion of the curriculum in which the activity exists, and the reasons for the request. The request may be granted, or denied, or partially granted and partially denied.

This policy shall not be interpreted to allow parents to prevent the dissemination of information which parents find religiously objectionable. Rather, this policy only extends to actual participation by their child in an activity, the performance of which is contrary to the child's religious teachings.

A parent or guardian seeking to opt-out their child from activities contrary to the child's religious teachings must complete the district's Activity Participation Opt-Out Form regarding religious objections which is available in the board office. Parents desiring to opt-out their children from activities due to religious reasons must return the completed and signed form to the principal. The form must be submitted within a reasonable amount of time prior to the scheduled activity in order to allow time for the principal to consider the request. The completed form shall be kept on file with the clerk and the superintendent shall receive a copy.

The principal shall review the request and determine whether the request should be granted or denied. The principal shall notify the parents of the decision within a reasonable amount of time after the request is submitted. If the parents are dissatisfied with the principal's decision, they may appeal in writing to the superintendent.

If the opt-out request is granted, students who opt-out of activities for religious reasons may still be required to view the activity, to learn the subject matter of the activity, or to discuss the activity. The student may be reassigned during the activity or given alternative class assignments.

Opt-out requests must be submitted annually and are valid only for the school year in which they are submitted.

Patrons or individuals attending functions or having short term business on school property are not required to provide advance notice to school staff in order to be accompanied by a service animal on school property.
