Campus High School

Security Proposal

KSDE Report

Summary

Crime Prevention Through Environmental Design

***KSDE Safe and Secure Report Summary* for Campus High School**

Exterior Assessment

- First impression is that the school grounds are well maintained and provide for good surveillance points
- Parking lots can be monitored better with more security personnel
- Delivery areas are a concern due to their openness
- There are some areas that are hidden and hard to monitor without proper camera placement
- Exterior athletic areas can be monitored by additional cameras

Exterior Assessment -cont

- Monitoring of entrances and exits can easily be enhanced with proper cameras placement
- Extra security personnel is needed to monitor and patrol the entry points

Interior Assessment

- Add mirrors to blind corners. Mirror, if properly placed can help expose the blind areas and corners
- Interior corridors are monitored by some cameras but have several blind and dark corners that current cameras cannot monitor
- Add additional cameras to the auditorium
- Add cameras to the Natatorium foyer and pool areas

KSDE Summary

1. The additional cameras and mirrors will enhance the safety of students, staff, and visitors during the school day.
2. The size of the campus and the large amount of entrances and exits as well as the volume of student passing between classes creates a need for greater situational awareness that only comes with more trained security staff. Security staff is needed to continually monitor and maintain a presence throughout the day.

Campus High School Security Proposal

History / Relevance:

- Campus High School has had 1 SRO and 1 security officer since 2000. Since that time, the population of CHS has increased by more than 700 students. Our current population is 1,667 students and over 150 staff members. In 1983, Campus had "closed" parking lots and two security guards for a student population of between 500/600 students.
- With our current SRO arrangement, there are times that the SRO must attend court and teach DARE at elementary schools, which leaves us without an officer.
- With our building set-up, we have 20+ doors that students can enter/exit.
- There has been a significant increase in the number of social/emotional health issues. Security is often called to deal with students in crisis and to work with school administration and the counselor's office.
- There has been a significant increase in unregulated vape products. We frequently get reports of students vaping and security and Campus administration go to check on these reports throughout the day.
- We have less security in comparison to other schools in the area based on our student population.

School Comparisons:

Campus
1660 Students
1-SRO, 1-Security

DERBY
2185 Students
2-SRO, 5-Security

Wichita South High
1752 Students
1-SRO, 4-Security

El Dorado
513 Students
1-SRO, 1-Security

What we would like to propose:

- **Two additional security officers (at least one female).**
- **20 Convex Security mirrors 26”**
- **10 security cameras to be placed in locations both inside and outside the building.**
- **10 wireless Vape detectors and 4 detector shells**
- **6 new radios for security use (school and event)**
- **Technology for the positions to monitor (cameras, vape detectors)**
- **Standardized dress for security**
  - **Recognizable for students, staff and parents**
  - **Professional appearance**
- **CPR/First aid training**

Why:

- Allows for more frequent monitoring of school grounds.
- Allows for administration to have more opportunity to be in classrooms
- Meets the recommendations of the KSDE Security audit
- Provides a peace of mind for students and parents regarding safety for their child at Campus
- We state that the safety and security of our students and staff is our utmost priority

Costs:

2 Security Positions	$37500/e	$75000.00
20 Convex Security Mirrors	$51/e	$1009.20
10 Security Cameras	$1200/e	$12000.00
11 Wireless Vape Detector with cage	$1155/e	$11550.00
4 Wireless Vape detector shell	$165/e	$825.00
3 Technology device for personnel	$500/e	$1500.00
6 District Radio (Kenwood)	$300/e	$1800.00
	Material Total	$28684.20
