Appropriate safety signs, slogans, or other safety items shall be posted on or in the near vicinity of potentially dangerous devices or machinery.

No student will be permitted to participate in the class until satisfactory knowledge of the safety rules are demonstrated to the teacher. Teachers will conduct periodic reviews of safety rules during the school year.

Warning System

The board will seek to cooperate with local government officials, emergency preparedness authorities, and other related state agencies to maintain adequate disaster warning systems.

Safety Inspections

The superintendent, building principals, and maintenance personnel will regularly inspect each attendance center, playground and playground equipment, boilers, bleachers, and other appropriate areas to see that they are adequately maintained. Written records of these inspections shall be maintained.

If repairs are necessary, the individual conducting the investigation shall immediately inform the building principal, superintendent, or immediate supervisor in writing. Necessary steps either to repair or to remove the defect will be taken as soon as possible. Defects requiring expenditure of money in excess of $20,000 will be reported to the board. Any defects not immediately removed, repaired, or otherwise eliminated shall be blocked off with fences or other restraining devices.

GAT Staff Use of Communication Devices (See IIBG and IIBGC) GAT

The board encourages district employees to use technology, including communication devices, to improve efficiency and safety. The district expects all employees to use communication devices in a responsible manner that does not interfere with the employee's job duties. Employees who violate district policies and procedures governing the use of communication devices may be disciplined, up to and including termination, and may be prohibited from possessing or using communication devices while at work. Communication devices may not be used in any manner that would violate the district's policy on student-staff relations.

Definitions

"Communication device" is defined to include all portable devices that send or receive calls or text messages, allow the retrieval of email, or provide access to the Internet. Communication devices shall include, but may not be limited to cell phones, smart phones, iPads, and tablets.

"Use/Using" for the purposes of this policy mean answering or talking on the phone; sending or responding to a text, e-mail, or other communication; opening and viewing pictures or digital recordings; opening and listening to music or audio communications; accessing social media websites; playing games on such device; continuously checking a communication device; or any activity with a communication device that interferes with the employee's job duties or appropriate supervision of students.

General Use

The district prohibits employees from using any communication device that interrupts or disrupts the performance of duties by the employee or otherwise interferes with district operations, as determined by the employee's supervisor. This prohibition applies regardless of whether the communication device used is owned by the employee or provided by the district. Employees are responsible for keeping communication devices secure and, if possible, password protected.

Supervision of students and the provision of academic instruction are priorities in the district, and employees who are responsible for supervising and/or providing academic instruction to students must concentrate on these tasks at all times. Employees shall not use communication devices when they are responsible for supervising students or when their doing so interrupts or interferes with classroom instruction unless any of the following conditions occurs:

- The device is being used to instruct the students being supervised at the time;
- The use is necessary to the performance of an employment-related duty;
- The employee has received specific and direct permission from a supervisor to do so; or
- There is an emergency.

Even when these conditions exist, the employee is responsible for obtaining assistance in adequately supervising students during the approved use so that students are supervised at all times.

Use in Vehicles

Regardless of other provisions of this policy, unless there is an emergency, employees shall not use communication devices when:

- Driving district-provided vehicles;
- Operating a vehicle in which a student is being transported when the transportation is provided as part of the employee's job; or
- Supervising students who are entering or exiting a vehicle, crossing thoroughfares, or are otherwise attempting to safely reach their destinations.

Even in emergency situations, employees should first take all possible safety precautions before using communication devices. Employees are subject to local, state, and federal laws governing use of cell phones while driving and will be solely responsible for all traffic violation liabilities resulting from their use of a phone while driving.

Use of District-Provided Communication Devices

The district may provide communication devices and service to some employees to assist them in carrying out their employment-related duties on and off district property. Use of a district-provided communication device is a privilege. The superintendent or designee has sole discretion as to which employees will be provided communication devices and may recall any previously issued communication device. Employees do not have any expectation of privacy in district-provided communication devices or any information stored on them, and such devices may be confiscated and searched at any time.

GAT Staff Use of Communication Devices

Employees are expected to exercise reasonable care to protect district-provided communication devices from damage or theft and must report any such incidents immediately. The district may require employees to reimburse the district for any damage or theft that was the result of the employee's negligence. Users of district-provided communication devices must abide by any use limitations included in the district's service contract.

Personal Use of District-Provided Communication Devices

Personal use of district-provided communication devices is permissible as long as the use does not exceed the limits of the applicable plan. An employee whose use exceeds plan limitations will be required to reimburse the district for all expenses beyond those covered by the plan and may have privileges suspended or revoked unless the employee can show that all use was for employment-related duties and the device was not used for personal reasons. The amount of personal use of a communication device or service paid for under E-Rate can be no greater than the cost allocation submitted in the request for the E-Rate discount. Staff members electing to use district communication devices for personal reasons will be subject to income tax liability for such benefit.

Staff Bring Your Own Device Policy

Use of employees' personal communication devices during work hours shall be restricted to classroom or work-related activities. Such personal communication devices may only be used by the staff member and are not for student use. The security of personal computing devices is solely the responsibility of the staff member. Any loss resulting from damage or theft of

personal communication devices in the school setting is not the responsibility of the district.

GBQA Reduction of Teaching Staff **GBQA**

If the board decides that the size of the teaching staff must be reduced, guidelines in the following rule or the negotiated agreement, if applicable, shall be followed. Insofar as possible reduction of staff shall be accomplished by attrition due to resignations and retirement.

The following steps will be utilized by the district's administrative staff to reduce the teaching staff:

The number of teaching positions to be reduced shall be in accordance with the educational goals established by the board. The number of teachers needed to implement the district's educational program will then be determined by the administrative staff based on those educational goals in determining which teachers will be nonrenewed due to reduction in force.

The educational goals and needs of the district, individual certifications, qualifications, training, skills, evaluations, and interests shall be considered.

If all of the teachers in the area identified for reduction have similar certifications, qualifications, training, skills, evaluations and interests, the teacher(s) who best meets the needs of the district, considering the factors outlined above and any other relevant factors, will be retained.

Any certified employee who has not been reemployed as a result of reduction of the teaching staff shall be considered for reemployment if a vacancy exists for which the teacher would qualify. Certified employees who may be eligible for reemployment are required to notify the district of their current address. The superintendent will recommend to the board reinstatement of any teacher he/she deems qualified and able to serve the best interests of the district. The board shall not be required to consider reinstatement of any teacher after a period of one year from the date of nonrenewal.
