Campus High School
CNA Class Proposal

Course Description

Wichita Area Technical College will offer a Certified Nurse Aide course at Campus High School beginning in January, 2014. The course would be one semester in length and include both classroom work and a lab component. The instructor would be from WATC and they would pay the salary of the instructor. Students would then qualify to take the CNA certification exam at the end of the semester.

The Certified Nurse Aide program prepares students to be caregivers in nursing homes while working under the supervision of licensed nurses. The instruction includes classroom, laboratory and clinical experiences. Students must successfully complete a competency skills checklist, maintain attendance as defined in the course syllabus and achieve satisfactory grades. The class would be offered 1st block as a part of the block schedule for the entire spring semester.

Cost for Students

$122.00 for scrubs and other equipment to be used by the student.

Cost for the District

Equipment for the skills lab – approximately $20,000.00. Hospital beds, toilets, bedding other health related equipment.

The school would purchase a classroom set of books for students - approximately $1500.00.
