Krista Pottier, Curriculum & Assessment Coordinator
Shenae Stein, Curriculum & Assessment Coordinator
Re: FastBridge Assessment
Date: April 19, 2021

History/Relevance: We currently use aimswebPlus to screen students in reading and math from second through seventh grades. When students move to eighth grade, we switch to using Scantron because aimswebPlus does not screen high schoolers. We do not currently screen all high school students with any screener and will need to do this as part of the Kansas Dyslexia Initiative. We do not currently have a social-emotional screener for students. We utilize aimswebPlus to progress monitor oral reading fluency, and this is the only progress monitoring or intervention tool we use district-wide from aimswebPlus or Scantron.

What: We would like to switch our district universal screener for math and reading, K-12, from aimswebPlus and Scantron to FastBridge, including their social-emotional screener, The Social, Academic, and Emotional Behavior Risk Screener (SAEBRS). In addition, we would like to utilize their progress monitoring and intervention pieces where applicable.

Why:

- Transitioning to FastBridge will provide data for Preschool through twelfth grades in the area of social-emotional risk and in second through twelfth grades for both reading and math competency.
- The use of a single assessment platform will provide a consistent tool district-wide through which to examine longitudinal growth during a student's time in our district.
- Data driven results from a social-emotional screener can enable us to better meet student needs and can be used as an artifact for the Kansas Can Star Recognition Program in the area of Social-Emotional Growth.
- FastBridge is currently the only assessment to meet the requirements of the Kansas Dyslexia Initiative through high school.

Where: FastBridge would be used at every level in every building. Because our district will soon have devices for every student, these screeners can be done in each classroom.

When: We would give the three parts of the assessment suite, social-emotional, reading, and math, three times per school year. We would like to begin this process in the fall of 2021.

How: Teachers currently responsible for administering aimswebPlus and Scantron will switch to FastBridge. In addition, teachers would be responsible for utilizing the SAEBRS for their students. The progress-monitoring and intervention tools will be used, when applicable, for interventions with our tier 2 and tier 3 students.

Who: We would recommend using FastBridge's social-emotional screener, SAEBRS, for all students preschool through graduation. We would also recommend using FastBridge's reading and math screeners for all students grades second through graduation, and the intervention and progress monitoring tools with students needing additional support in preschool through graduation. This will impact all students and most certified and classified staff in USD 261.

How much: The total cost for the 1st year of implementation will be $47,250.00 and dropping to $41,250.00 in the following years.

Thank you,

Jennifer Krista Shenae
