Krista Pottier, Curriculum and Assessment Coordinator

Shenae Stein, Curriculum and Assessment Coordinator

Re: 6-12 Science Resource Adoption

Date: April 19, 2021

History/Relevance: We adopted our current science curriculum resources during the 2011-2012 school year. We are in need of resources that are updated with some of the new scientific knowledge available as well as to align to the demands of the current state assessment.

What: We are asking for approval to purchase science materials from the following textbook companies:

- Savvas
- McGraw Hill

Why: These resources will allow us to align with the KCCRS/NGSS and give students access to updated scientific information from the past decade.

Where: These resources will be in all secondary buildings to provide support to our science program.

When: These resources will be in our buildings beginning in the 2021-2022 school year.

How: Once the resources are approved, we will provide training for staff and time to work with the new materials.

Who: This proposal will allow us to provide teachers resources aligned to both the demands of the KCCRS/NGSS and the state assessment.

How Much: There are quotes attached along with a summary page. The secondary science quote totals $352,299.00. This includes teacher training, teacher resources, and student resources.

Thank you,

Jennifer, Krista, Shenae
