RE: Otus Remote Learning Software

**History / Relevance:** The ability to allow students to transition between on-site learning and remote learning is crucial to successful operations during the COVID – 19 pandemic. Otus remote software will serve as the platform for allowing communication, instruction, data sharing/warehouse, and differentiated instructions for both on-site and remote learning. This platform will be uniform throughout the district and will give our students and parent a single login source for instruction, communication, learning, and data access.

**What:** We are asking for a resolution to Purchase Otus Remote Learning Software from Otus LLC.

**Why:** This software will serve as the foundation for allowing seamless transitions for students and staff from on-site learning to remote learning.

**Where:** This software will be used with all levels of instruction.

**When:** The timing is crucial to allow for proper training and integration.

**How:** The Assistant Superintendent for Learning Services and the Learning Services Department will monitor and facilitate the integration as well as the professional development surrounding the implementation of this software.

**Who:** Assistant Superintendent for Learning Services and the Learning Services Department. This software will be shared and used by staff, students, and parents.

**How Much:** The cost for this software is $62,640.00 and will come out of the Federal CARES funds for COVID response.

If you have any questions, please contact me.

Thank you for your consideration.

# Otus + Remote Learning

Most K-12 Learning Management platforms create chaos. From multiple logins to disconnected freemium tools, it's impossible to see the bigger picture without a central hub. Otus is that hub.

### Communication

One place for students and families to receive updates and information from teachers.

### Organization

Learning activities, resources, and assignments bundled together and easy to understand

### Measure Learning

Design and distribute engaging formative assessments, aligned to standards

### Visibility

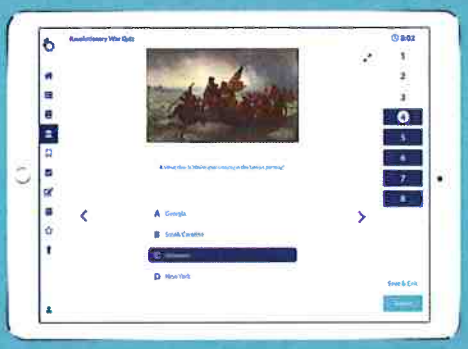

Run analytics on student learning and engagement that is happening in your schools, as it happens

## Simple User Interface

Our **lessons** module is modern and simple. Assign and share lessons with ease.

From simple **assessments** to rubrics, you decide how to measure learning.

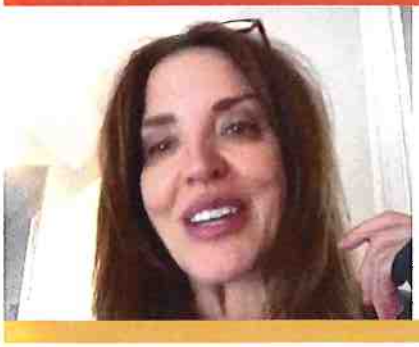

Real-time **data** insight into student growth and performance.

## School Leaders

We would love to learn more about your school community and the specific pain points you have faced while implementing remote learning in your district. If you want to get started with Otus, contact us:

**McKay Hawkes | mckay@otus.com | 801-528-2411**

"Thank you Otus, for all the work you have done making my life easier teaching from home!"

IDA FIORE
8th Grade Science Teacher

"The biggest advantage of Otus is to organize our data to see trends in student growth, and help make instructional decisions."

JOSHUA HALVERSON
Technology Coordinator
