**1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).**

The Lennox School District is committed to supporting the arts by offering students meaningful opportunities to learn, create, and grow through artistic expression. We also encourage community involvement and collaboration with experts to celebrate and engage with the arts produced in our schools. Our dedication to arts education is reflected in many ways. Classrooms across the district incorporate arts into diverse learning experiences, and disciplines such as visual arts, music, theater, dance, video production, animation, and performance arts are all central to the Lennox educational experience. With the support of Proposition 28 funding, we have expanded our arts education programs across all schools. At the middle school level, we've added three new arts program sections and enhanced our offerings with new musical instruments. At the elementary level, we launched a successful introductory music pilot for first-grade students at four schools, delivered in partnership with an educational organization. Building on this success, we are using the waiver granted by the CDE to expand the program to all five elementary schools for grades TK through 2. Our long-term goal is to increase arts staffing in alignment with Proposition 28 guidelines, ensuring that every student in Lennox has access to high-quality, enriching arts education.
