Dear Wall Township Public Schools Students, Families, and Staff,

Today marks my first official day as your Superintendent of Schools, and I could not be more honored or excited to begin this journey with you. Since my appointment by the Board of Education this past February, I have spent the last four months engaged in a pre-entry period dedicated to listening, learning, and becoming acquainted with the unique culture and strengths of Wall Township. These opportunities for observation and connection have only deepened my appreciation for a district where excellence has long been a tradition.

As a native of Monmouth County and the son of two career educators, my passion for public education is deeply personal. Over more than two decades in education I have learned that school systems are strongest when they are united by a shared purpose and a commitment to serving others. I am eager to work alongside the talented and dedicated professionals of Wall Township Public Schools whose efforts make our schools exceptional.

My leadership is guided by a fundamental belief: **ALL means ALL**. I believe every student in Wall Township is capable of achieving at high levels, and it is our collective responsibility to provide the support, opportunities, and experiences necessary for each child to reach their fullest potential.

As we move forward together, I remain deeply committed to our current strategic priorities while maintaining a focus on continuous improvement. During the 2026-2027 school year, I look forward to engaging students, staff, families, and community members in developing a new strategic plan that will help chart the future of our district and ensure we continue to meet the evolving needs of all learners.

Although our classrooms are quieter during the summer months, the work of preparing for another successful school year is already underway. You can expect me to be a visible and accessible leader throughout the summer as I attend district programs and community events and focus on ensuring a strong start to the school year. To support a seamless transition and sustain the tradition of excellence that defines Wall Township Public Schools, I have developed a comprehensive four-phase entry plan available on the [Office of the Superintendent](#) website that will guide my work during my first year as Superintendent.

I am honored to serve this community and ready to lead with passion, purpose, and dedication. Together, we will ensure that every student receives the exceptional educational experience they deserve.

I look forward to welcoming everyone back when the bells ring this September.

With gratitude and excitement,

Dr. David Bleakley, Superintendent of Schools - Wall Township Public Schools
