- NWTC Windows Client Essentials (offered to students in grades 9-12)

8.0 credits of additional **Electives**
24.0 total credits must be earned to qualify for graduation

* Students must also present their graduation portfolio.

INSTRUCTIONS FOR ENTERING COURSES ON SKYWARD ON January 19th

1. Log into your Skyward account
2. Click on SCHEDULE
3. Click on REQUEST COURSES FOR CURRENT YEAR IN SHAWANO HIGH SCHOOL
4. Now you can enter classes. A class search may be done by entering the course number or name. The list of classes will appear on the left side of the screen. Click the class you want and then click ADD. Classes added will appear in the right-hand box.
5. If you are signing up for a yearlong class then, sometimes, you need to add both semesters while other times the computer will automatically add both semesters. For example, Beginning Horticulture is a two-semester class, so you must add semester 1 and semester 2 by entering both numbers listed alongside the course title.
6. You need to enter at least 7.0 credits but not more than 8. You do not need to add study halls. Study halls will be added wherever there is no class scheduled. Requesting 8 credits leaves no room for study halls. Please review your class request list carefully and double check that you have entered everything.
7. Now, you need to click on ALTERNATES and add the 3 classes you entered in the boxes on the front of this page. Alternates are chosen in the event that one of your first-choice electives is not offered. Review your selections again.
8. Share your request choices with your parent/guardian.
9. Log off. Yes, it is saved!

Please read the course descriptions and prerequisites before requesting classes. The Course Description Book can be found on the Student Services section of the high school webpage under Scheduling Information.
