INSTRUCTIONS FOR ENTERING COURSES IN SKYWARD ON December 15th

1. Log into your Skyward account using the **browser option**
2. Click on SCHEDULE
3. Click on REQUEST COURSES FOR CURRENT YEAR IN SHAWANO HIGH SCHOOL
4. Now you can enter classes you chose in STEP 1 and 2. A class search may be done by entering in the course number or name. The list of classes will appear on the left side of the screen. Click the class you want and then click ADD. Classes added will appear in the right-hand box.
5. If you are signing up for a yearlong class, then, sometimes, you need to add both semesters while other times the computer will automatically add both semesters. For example, Beginning Horticulture is a yearlong class so you must add semester 1 and semester 2 by entering both numbers listed alongside of the course title. Double check that you are adding the correct course.
6. You need to enter at least 7.0 credits but not more than 8.0. You do not need to request study halls. Study halls will be added wherever there is no class scheduled. Requesting 8.0 credits leaves no room for study halls. Please review your class request list carefully and double check that you have entered everything.
7. Now, you need to click on ALTERNATES and add the 3 classes you entered in the boxes on the front of this page in STEP 3. Alternates are chosen if one of your first-choice courses is not offered or doesn't fit. Review your selections again.
8. Share your request choices with your parent/guardian.
9. Log off. Yes, it is saved!

Please read the course descriptions before requesting classes. The Course Description Book can be found on the Student Services section of the high school webpage under Scheduling Information.

Youth Apprenticeship

During the last two years of high school, you could spend part of your school day completing required classes and the other part of the day working. Informational meetings will be held in January. Talk to your school counselor if you are interested in this program.
