

Hi Parents & Student-Athletes,

First, thank you all for your patience as we worked through summer scheduling, facility logistics, and preseason planning. We appreciate everyone's flexibility and support throughout the process, and we are excited to officially share the schedule moving forward.

Summer Training Schedule

Our summer football training sessions will officially begin on Tuesday, June 9th and will run throughout the summer on Tuesdays, Wednesdays, and Thursdays from 7:00–9:00 AM.

The goal of these sessions is to continue building our culture, develop movement and football fundamentals, improve strength and conditioning, and spend consistent time together as a program.

We will operate on a 4-weeks-on, 1-week-off structure throughout the summer.

Planned Off Weeks:

- July 5 – July 12
- August 2 – August 9

We also fully understand that summer is a time when many families have vacations, camps, internships, summer programs, work commitments, and other important experiences planned. We absolutely support those opportunities and believe they are an important part of our student-athletes' growth and development outside of football as well.

Our goal this summer is not perfection in attendance, but rather creating consistent opportunities for connection, development, accountability, and team building whenever players are available.

We will continue putting together ways for players to stay connected and continue progressing while away through workout guidance, communication, accountability structures, and other resources throughout the summer.

Also, we will be participating in weekly 7-on-7 competitions on Wednesday evenings throughout portions of the summer at St. Sebastian's School from 5:30–7:30 PM beginning on June 24th. Additional details regarding schedules, transportation, and availability will be shared as we get closer.

Additional details regarding exact daily schedules and expectations will be shared soon, but we wanted to get these dates out to families as early as possible for summer planning purposes.

We are excited about the direction of the program and appreciate everyone's continued communication and support as we continue building together.

If you have any questions or concerns, please do not hesitate to reach out.

Looking forward to getting started!
