Pre-Determination of your Humana Dental benefits **If you expect to pay more than $300 for dental care, your dentist may submit a proposed dental treatment plan** that Humana will use to help provide you with an estimate of benefits for the planned service. This may sometimes be referred to as a "Pre-Treatment Estimate." While recommended, this is not required before receiving treatment. The estimate is based upon benefits available at the time of processing and may change if other claims are submitted prior to completion of treatment.
