

We are excited to announce that Southeast Dubois School Corporation is implementing StudentSquare, our new student communication platform. StudentSquare will become one of the primary ways schools, teachers, coaches, and activity sponsors communicate important information directly with students. Through StudentSquare, you may receive updates regarding:

- School announcements and reminders
- Athletic schedules and updates
- Club and extracurricular activities
- Classroom communication from teachers
- Event information and deadlines
- Emergency notifications and school closings

Students can access StudentSquare anytime through the StudentSquare mobile app on their personal device outside of school or through the StudentSquare website on their school Chromebook. This makes it easy to stay informed about school announcements, athletic updates, club activities, classroom communications, and important events.

Getting Started

You will receive an invitation email from StudentSquare. Please activate your account as soon as possible and verify your information to ensure you receive important school communications.

When activating your account, please use your Southeast Dubois School Corporation Google account credentials. Once activated, you can sign in using your school Google account to access StudentSquare.

If you are unable to activate your account, assistance will be available during homeroom where we will help students activate their accounts and answer any questions.

Download the StudentSquare App

For the best experience, we encourage you to download the free StudentSquare app:

- Apple Devices – Download from the App Store
- Android Devices – Download from the Google Play Store

By activating your account and using the StudentSquare app, you'll have quick access to school announcements, messages from teachers and coaches, activity updates, and important reminders.

We are excited to bring StudentSquare to Southeast Dubois School Corporation and look forward to improving communication and keeping students better connected to their schools.

Sincerely,
Dr. Jamie Pund
Superintendent
Southeast Dubois School Corporation
