Orion's Pragmatic Language Skills Questionnaire
Date:
Interpreted by:

The Pragmatic Language Skills Questionnaire provides a way to evaluate the current skill level of a child in terms of their use of language skills on a day-to-day basis. In the current assessment, this tool was used to identify /// strengths and weaknesses in seven pragmatic areas in order to determine if programming is necessary and what skills might be targeted. On the questionnaire, individual skills in each of the seven areas are rated as to frequency of occurrence (almost always, usually, about half the time, rarely, never.) /// of /// teachers rated /// pragmatic language skills.

Nonverbal Communication
/// almost always ///. /// usually ///. About half the time ///. /// rarely ///.

Expressive Skills
/// almost always ///. /// usually ///. About half the time ///. /// rarely ///.

Conversational Skills-Topic Maintenance
/// almost always ///. /// usually ///. About half the time ///. /// rarely ///.

Conversational Skills-Turn Taking
/// almost always ///. /// usually ///. About half the time ///. /// rarely ///.

Speech Conventions
/// almost always ///. /// usually ///. About half the time ///. /// rarely ///.

Peer Skills
/// almost always ///. /// usually ///. About half the time ///. /// rarely ///.

Other
/// almost always ///. /// usually ///. About half the time ///. /// rarely ///.
