

Enriched Algebra 2 Summer Work 2026

Why are you getting this assignment?

We would like you to be familiar with topics you learned in Algebra 1, so we can begin Algebra 2 right away!

What is your assignment?

You have **5 total assignments** on DeltaMath, with each assignment reviewing different concepts. DeltaMath includes examples to look at and help videos available for you if you get stuck. You can continue trying multiple problems until you get the concept down.

Below are the directions to create an account (if you don't have one) or add a new teacher to your account (if you already have one).

You should plan to complete this work toward the end of August, so that the material is fresh in your mind as we start school. Your work will be added as a completion grade in Aspen.

You should plan to spend 2-3 hours total on this assignment.

The link to your assignment is: <https://www.deltamath.com/students?code=U655-MN3G>

If that does not work, there are further instructions below.

This work is due on **Tuesday, September 8, 2026**

Good luck practicing, have a great summer, and we are looking forward to meeting you when the school year begins!

Ms. Farwell and Mrs. Omobono

**Please note that Ms. Farwell (Weylman-Farwell) is listed as the teacher for this summer work in DeltaMath, even if she is not your Enriched Algebra 2 teacher.*

Contents:

Page 2 - Create a new DeltaMath Account

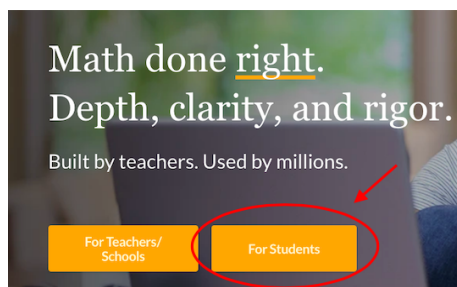

Page 3 - Change teacher in a current DeltaMath Account

Page 4 - Summer Work Topics and Time Estimates

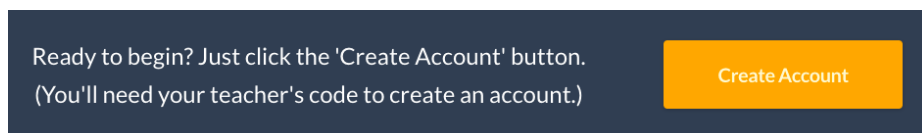

If the link on page 1 does not work, follow the following steps:

If you are NEW to DeltaMath: CREATE AN ACCOUNT on DeltaMath

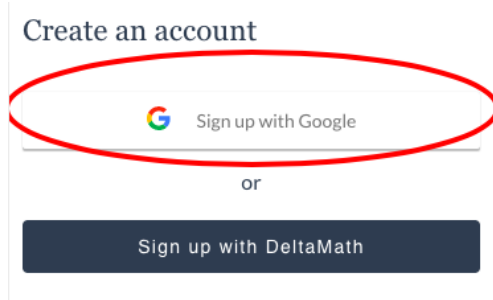

Go to <https://deltamath.com/> and select “For Students”

Then “Create Account”

Then, login with your CCHS Google Account

For TEACHER CODE, type in **708791 (Ms. Weylman-Farwell)**. *Again, even if Ms. Farwell is not your Enriched Algebra 2 teacher, you will join this DeltaMath class to complete your summer work.*

Fill in your information.

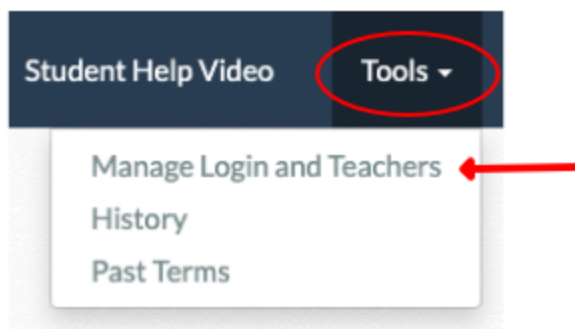

For CLASS PERIOD, select “**Enriched Algebra 2 Summer Work 2026**”

Click “**Create Account.**”

Sign in using your information, which should bring you to the home page. On your homepage you can see your current assignments.

If you ALREADY HAVE A DeltaMath ACCOUNT and the link on the first page didn't work:

Login to your DeltaMath account, and in the top right corner click on the “Tools” dropdown menu and select “Manage Login and Teachers.”

At the bottom of your Login and Class Information page, click on the button that says “Add Teacher.”

Add Teacher

For TEACHER CODE, type in **708791 (Ms. Weylman-Farwell)**. *Again, even if Ms. Final is not your Enriched Algebra 2 teacher, you will join this DeltaMath class to complete your summer work.*

After typing in the class code, a dropdown menu should appear. Select “**Enriched Algebra 2 Summer Work 2026**” and select “Add”. If DeltaMath asks for a class code, it is **U655-MN3G**

Now on your homepage, in the top left corner you should have the option to choose a “Course.” Click on **Enriched Algebra 2 Summer Work 2026**.

Summer Assignment Topics:

Algebra 2 Summer Work - Solving Equations and Inequalities (28 minutes)

Algebra 2 Summer Work - Midpoints, Distance and Radicals (18 minutes)

Algebra 2 Summer Work - Polynomials (50 minutes)

Algebra 2 Summer Work - Equations of Lines (37 minutes)

Algebra 2 Summer Work - Systems and Inequalities (32 minutes)

**Time shown in parentheses is the estimate given by DeltaMath for how long each assignment should take so that you can plan accordingly.*
