# Technology Requirements for 2026-2027

All personal devices should be able to support Google Classroom and Zoom. In keeping with our goal of using technology to enhance and maximize learning, please refer to the Sacred Hearts Academy Technology Requirements below for the 2026-2027 school year.

- **PreSchool- Grade 2:**
  - Sacred Hearts Academy will provide each class with an iPad at a 1:2 ratio (one iPad for every two students). Learning in pairs and collaborating with each other is the suggested mode of learning for this age group. If teachers conduct a particular lesson requiring all students to have individual access to an iPad they will borrow a set from another grade level classroom for the lesson or from the Academy's IT Department.
- **Grade 3 thru Grade 8:**
  - Students are required to bring their own personal computing device to school on a daily basis; all personal devices should be equipped with WiFi capability.
  - Laptops running Windows 10, Google Chromebook, Apple MacBook, Apple MacBook Pro, and Apple MacBook Air, will meet the minimum requirements.
  - Students may use an iPad with a keyboard, but note that not all applications are supported by iPad.
  - It is required that students label their devices & accessories with their name, have access to WiFi outside of school/at home, and ensure that their device also has a speaker, microphone, and camera capability.
- **Grade 9 thru Grade 12:**
  - Students are required to bring their own personal computing device to school daily; all personal devices should be equipped with Wi-Fi capability.
  - Laptops running Windows 10, Google Chromebook, Apple MacBook, Apple MacBook Pro, and Apple MacBook Air will meet the minimum requirements.
  - It is strongly advised that students use a laptop rather than an iPad, as several applications used by the faculty during instructional time are not supported on the iPad, and our standardized testing platforms are not supported on the iPad.
  - It is required that students label their devices & accessories with their name, have access to WiFi outside of school/at home, and ensure that their devices also have speaker, microphone, and camera capabilities.

Please contact **Cynthia McIntyre, Lower School Principal**, at **(808) 734-5058**, **ext. 255** or via email at cmcintyre@sacredhearts.org, or **Cyril Pires**, **Registrar**, at **(808) 734-5058, ext. 222**, or via email at cpires@sacredhearts.org for any questions.
