My name is Itzel and I am in 5th Grade. Before I started coming to 21st Century my afternoons were boring; but now my afternoons are filled with exciting adventures. My absolute favorite thing to do here is Scrapbooking because it let's me be creative and talk about things that I like. We do alot of cool STEAM activities, and I felt like a total genius when I made Moon Sand. The program has helped me grow because now I am much better at being creative and learning. I think the 21st Century program is the best part of my day.

My name is Brayden and I am in 4th Grade. Before I started coming to 21st Century my afternoons were ordinary; but now my afternoons are filled with fun with friends. We do a lot of cool STEAM activities, and I felt like a genius when we got to code Ozobots because I was the one coding a robot. This program has helped me grow because now I am much better at coding. I think the 21st Century program is life-changing.
