Paul Laurence Dunbar High School – Roof Replacement

- **Completed/Work in Progress:**
  - A section of area ‘A’ insulation and base sheet has been installed.
  - Significantly more progress than other weeks, with work expected to continue at a steady pace throughout the week.
  - High walls at skylight areas receiving insulation and temporary tie-ins.
  - Substantial amounts of material being removed from the site.
  - Five roof sumps have been installed.

- **Upcoming Look Ahead:**
  - Continue work in Area A, awaiting additional SBS crew to accelerate progress over the classroom areas.
  - Weather is hot and dry, roofers working at a steady pace.
  - Architect coordinating skylight and metal roofing details with respective installers.
  - Active construction is expected to continue as weather permits.
