The CAC advises the Board of Education regarding special education policy issues as related to the Local Plan.

The District's Chief, Pupil Services & Special Education/SELPA and a School Board member attend the meetings and discuss programs and policies with the committee.

When you attend a CAC meeting, you may ask questions, get information, express concerns and opinions, give recommendations, and meet the people who make decisions about special education.

Every CAC meeting includes time for "Public Comment" where anyone can raise a topic for discussion or let CAC know of a general concern. If your concern is case specific, you will be referred to a parent network representative or appropriate district staff.
