

Pathway Learning Experiences

Building Knowledge. Developing Skills. Inspiring Futures.

STAGE 1: LEARN

Within our classrooms, students build a strong foundation through hands-on skills labs, simulations, industry-aligned curriculum, and career exploration.

STAGE 2: APPLY

Students expand their learning through health fairs, community outreach, service projects, guest speakers, and leadership activities.

Scan to Apply!!

STAGE 3: EXPERIENCE

Eligible seniors receive first priority for off-campus clinical placements with our healthcare partners. Eligible juniors may participate as placement opportunities become available.

WHO PARTICIPATES?

Pathway Learning Experiences are available exclusively to students enrolled in a McClure Health Science pathway.

Students enrolled in a McClure Health Science pathway have opportunities to participate in Pathway Learning Experiences throughout their program. Experiences may include classroom simulations, on-campus activities, community engagement, leadership opportunities, and, for eligible students, off-campus clinical placements.

CLINICAL READINESS & PARTICIPATION

PLACEMENT PRIORITY

Seniors receive first priority for clinical placements.

Eligible juniors may participate after senior placements are finalized. Placement opportunities depend on healthcare partner availability.
