

# TODAY

THE CHALLENGES WE FACE

## Crowded Elementary Schools

Our schools are over capacity.

## Half-Day Kindergarten

Our youngest learners have less time to learn and grow.

## Not Designed for Young Learners

Our youngest students share spaces built for older grades.

# A NEW K-1 EARLY LEARNING CENTER

*Built for Their Future*

No additional costs to taxpayers beyond the annual approved budget.

# TOMORROW

THE BRIGHT FUTURE WE BUILD

## Comfortable Schools

Relieves overcrowding so every student has the space to learn, grow, and thrive.

## Full-Day Kindergarten

Expands learning time so our youngest learners get the strong start they deserve.

## Designed for Early Learners

A safe, engaging environment built specifically for kindergarten and first grade.

**MORE SPACE. | MORE LEARNING. | BETTER BEGINNINGS.**

# K-1 Early Learning Center

Plans continue for our K-1 Early Learning Center, which will offer a full-day kindergarten and first grade learning experience in an environment tailored to our youngest learners!

The district will incur additional debt as the financing vehicle to pay for the new school. The debt service payments are paid out of the RTMSD operating budget that is approved annually. Annual budget increases must be at or below the state Act 1 index and approved by the Board of School Directors each year. There will be no additional costs to tax payers beyond the annual approved budget for the new school.
