Narrative description of the Prop 28 art education program(s) funded.

Fenton Charter Public Schools offer a visual and performing arts program based on a sequential introduction of the California State Content Standards for the Visual and Performing Arts:

- 1.0 Artistic Perception
- 2.0 Creative Expression
- 3.0 Historical and Cultural Context
- 4.0 Aesthetic Valuing
- 5.0 Connections, Relationships, Applications

The visual arts are integrated with all other curricular and content areas in all grades.

- English language development is a focal point as students are given the opportunity to discuss their shared art experiences with each other.
- Elements of art can be observed in every day instructional activities.
- Age-appropriate projects, which incorporate correct use of materials, introduction of various art techniques and media, are explored extensively at these grade levels.
- All students participate in at least one performance for parents, which incorporates visual and/or performing arts.

The key disciplines of visual arts and music are addressed through weekly instruction provided by a part-time visual arts teacher and music teacher. Lessons focus on the Common Core State Standards and are sequenced to correlate with language arts, history/social science, and science units.
