

AFJROTC COURSE DESCRIPTIONS

AFJ110 Milestones in Aviation History AS100

Air Force Junior Reserve Officer Training Corps (AFJROTC) I courses include both aerospace studies and leadership/life skills education. In these courses, leadership/life skills lessons cover the heritage and development of the Air Force, including its structure, operations, customs, and courtesies. Aerospace topics include the development, history, and impact of flight, aircraft and the environment in which these craft operate.

AFJ200 Science of Flight AS200

Air Force Junior Reserve Officer Training Corps (AFJROTC) II courses include both aerospace studies and leadership/life skills education. In these courses, leadership/life skills lessons cover intercommunication skills, drills, and military ceremonies. Aerospace topics emphasize the science of flight, including factors of aerospace power, aircraft flight, and navigation.

AFJ300 Exploring Space AS300

Air Force Junior Reserve Officer Training Corps (AFJROTC) III courses include both aerospace studies and leadership/life skills education. These courses continue to develop students' life and leadership skills and the ways in which they apply to military life. Aerospace topics emphasize space technology and exploration, examine national defense systems, and advance students' knowledge of the solar system.

AFJ420 Management of the Cadet Corps AS400

Cadets must be approved by the SASI and ASI to enroll in this 400-level class. Air Force Junior Reserve Officer Training Corps (AFJROTC) IV courses include both aerospace studies and leadership/life skills education. The course concentrates on leadership and management principles and career opportunities. This class also has a heavy focus on ensuring the Corps executes its annual plan. Course content may also cover elements of national power and relationships between the nations of the world.
