June 12, 2026

Dear Students and Families:

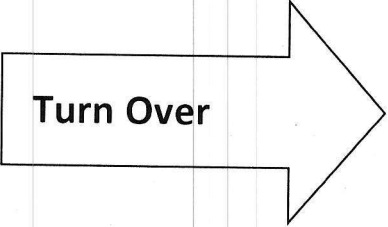

As your 4th Grade Mathematics, Language Arts, Social Studies, and Science teachers, we are looking forward to the 2026-2027 school year. We are aware that many parents like to shop early for Back-to-School Supplies, so we are providing a list of supplies to get started for a successful 4th grade year. There may be additional items requested by your child's teacher; however, that will be given in September.

On the back of this letter, you will find the lists of supplies required for each teacher. These items are tools that will help your child be organized and make next year a successful one.

Also, please be aware that your child has summer Math work that is due the 1st week of school. The Math assignment is attached to this packet.

Sincerely,

Your Future 4th Grade Teachers

June 2026

Summer Math Practice for Incoming 4th Graders

Dear Students,

As you may or may not know, this coming September, you will be learning math at a 5th grade level in your 4th grade math classroom. To brush up on your 4th grade math skills and prepare you for the 5th grade math curriculum, it is important to practice and work to refine your skills during the summer months. You will use the Khan Academy website to gain an advantage and be better prepared for the coming school year. This will allow you extra practice and the opportunity to work at your own pace. Your work should be completed from June through September 9th. Attached are directions on how to connect to Khan Academy and how to begin. (Students at School No. 22 will receive their logins before the end of their 3rd grade.) Your math teachers will be monitoring your progress and have already set the 4th grade Course Mastery as your Goal for the summer (**This is NOT Get Ready for 4th grade**). You will receive credit for the percentage of 4th Grade Course Mastery Completed on your return to school. Try to set up a schedule for yourself. (For example: You may choose to work for half an hour on Monday, Tuesday, Wednesday and Thursday or you may want to work for an hour 3 days a week). Khan Academy is a wonderful tool that can be accessed with any device. *You are required to complete at least 75% of the 4th grade Course Mastery (NOT Get Ready for 4th grade). Your grade will reflect the percentage completed out of 75% (For example: In September if you completed 75% of the 4th grade Course Mastery you will receive a 100% as your grade. This will be your project grade for the 1st marking period.*

*****Also, be sure all multiplication facts are memorized!!!**

Due: September 10, 2026

All the best,
Your 4th math teachers
Mrs. Hackett and Mrs. Sacca-Rivera

William F. Halloran School No. 22

KHANACADEMY

FOURTH GRADE MATH 2026-2027

Creating an account for students not having a KHAN account

1. If you already have a KHAN account go directly to **Step #4**.
2. If you do not have a KHAN account go to Sign up at **khanacademy.org**
3. (CLICK ON "CREATE A NEW ACCOUNT")

Your username must be:

your Username (what you log into your computer as). Password use: summer2026

Write down your username and password here: (ex: MH789450)

4. Visit **khanacademy.org/coaches** (the "Coaches" tab in your profile).

Click on Join a Class, enter the class code WJGN3S5W

<https://www.khanacademy.org/join/WJGN3S5W>

5. Now you're set. Click on **Subjects** in the upper left side corner.
6. Click on **4th** under Math by Grade
7. Click on **Course Mastery. (NOT Get Ready for 4th grade)**
8. Go to the 4th Grade on the left side and click Course Summary. There you will see all the skills that will need to master. You can begin working on those skills listed below.
9. There are also Course Mastery Challenges at the bottom of the list that you can test your knowledge of the skills in this course. If you start with the Course Challenge, this can help you understand what you need to Review.
10. Khan Academy will keep a record of the amount of time spent watching math videos and the number of fourth grade math skills mastered and send a report to your 4th grade math teacher. You can check your progress by clicking on **Progress**, then click on **Activity**.
