RESOLVED:

that the New York State School Boards Association supports legislation allowing school districts to provide meals year round using the same regulations covering the September to June time-frame, and provide reimbursements at the same rates.

RATIONALE:

In New York State, the percentage of economically disadvantaged students has grown to 60% as of the 2024-2025 school year. Many of those students count on getting breakfast, lunch and more at their schools and may not get adequate amounts of food at home. The educational growth and social well being of our students is very dependent on proper nutrition.
