Bard High School Early College Cleveland

SOUTHWEST REGION

Overview

Bard High School Early College (BHSEC) Cleveland is a transformative four-year public school experience that empowers motivated scholars to take charge of their futures.

The curriculum begins with two years of college preparatory courses in 9th and 10th grades. Starting in the 11th grade, students will embark on a **tuition-free, two-year college program in the liberal arts or sciences,** earning up to **60 transferable college credits** and taught by experienced college professors.

Scholars have the potential to earn an Associate degree in Arts **from Bard College,** all while completing their high school diploma.

Through a groundbreaking partnership between **Bard College** and the **Cleveland Metropolitan School District,** BHSEC offers an unparalleled opportunity to accelerate academic achievement and reduce the cost of college.

BHSEC's rigorous curriculum emphasizes critical thinking through writing, discussion, and inquiry, preparing students for success in college and beyond. BHSEC offers a close-knit, intellectually vibrant community and a proven alternative to a traditional high school for those ready to begin college work at age 16. BHSEC Cleveland benefits from Bard College's 20 years of experience running successful early colleges in partnership with public school districts.

Benjamin O. Davis, Jr. High School

EAST REGION

~ Merging Davis Aerospace and Maritime High School & Cleveland High School for Digital Arts ~

Overview

Benjamin O. Davis Jr. High School is a vibrant hub of creativity, innovation, and ambition, where students are inspired to dream big and achieve greatness in the heart of Cleveland.

This innovative high school combines the strengths of Cleveland High School for Digital Arts and Davis Aerospace and Maritime High School, delivering a future-focused education that combines digital media arts with aerospace and maritime pathways.

Scholars can transform their passions into lifelong careers through immersive, project-based learning in video game design, graphic design, social media communications, photography, film production, aviation, and maritime studies. Scholars can even learn to fly a plane or work on a vessel while still in high school, gaining real-world experience that sets them apart. With opportunities to earn college credit, graduation seals, and internships with community partners, Davis High School empowers scholars to chart their own course while mastering skills that matter.

College Credit Options	• Advance Placement • College Credit Plus

Inspired by the legacy of General Benjamin O. Davis Jr., a 1929 graduate of Central High School, Tuskegee Airmen leader, and trailblazer who fought for dignity and opportunity, Davis reflects his strength, perseverance, and vision for the future. At Davis, learning is anything but ordinary. One day, you might design a winning reality show concept, and the next, you could step into the role of a crime scene investigator during an algebra lesson or explore the science of flight and navigation. Supported by innovative teacher-mentors and embraced by a community that feels like family, scholars take ownership of their learning, their path, and their future. This is not just a school. It's a launchpad for the next generation of creators, leaders, and explorers.

East Tech High School

EAST REGION

~ Welcoming MC2STEM High School ~

Overview

We are the SCARABS, the Mighty, Mighty Scarabs! Rooted in an ancient legacy of resilience, strength, and transformation, East Technical High School has always stood for excellence, pride, and empowerment.

Now, we're taking that tradition to the next level by merging with MC^2 STEM High School, Cleveland's premier hub for hands-on, real-world STEM education. Together, we are creating a dynamic learning environment where rigor meets innovation.

Our scholars will experience top-notch education grounded in Ohio Learning Standards, culturally relevant, data-driven instruction, project-based learning, and industry mentorships.

They will also explore exciting career pathways in Engineering and Science Technologies, Culinary Arts, and Agribusiness and Production Systems, with opportunities to gain real-world experience by working in the student-run restaurant, Executive Grille.

With access to college-level courses and authentic learning experiences, we are building the future of global learners and leaders. We are the Scarabs. We are STEM. We are unstoppable.

Garrett Morgan High School

NEAR WEST REGION

~ Merging Garrett Morgan School of Engineering & Innovation & Garrett Morgan School of Leadership & Innovation ~

Overview

Garrett Morgan High School is a gateway to the world, offering scholars a unique blend of STEM education and leadership development. Garrett Morgan is merging the Garrett Morgan School of Engineering and Innovation and the Garrett Morgan School of Leadership and Innovation into one unified institution. Our engineering program features four rigorous courses: Introduction to Engineering Design, Principles of Engineering, Digital Electronics, and Industrial Robotics. Students build a strong foundation in 3D modeling, circuits, physics, and technical drawings, preparing them for STEM degrees and industry-recognized certifications.

At Garrett Morgan, scholars can become changemakers. We inspire curiosity and empower learners to take social responsibility in addressing issues like social justice and equity. Through an arts-based inquiry approach, students explore public policy, urban design, and citizen engagement, developing the skills to challenge ideas, redefine solutions, and design the communities they envision.

Scholars also gain access to internships, mentorships, and college prep programs through partners like Open Doors Academy, Tri-C Upward Bound Math/Science, ACE Mentoring, MAGNET, and the Northeast Ohio Tech Talent Pipeline. Plus, exclusive opportunities with industry leaders such as Rockwell Automation and the Cleveland Water Department.

Ginn Academy

NORTHEAST REGION

Overview

Founded in 2007 by Ted Ginn, Sr., legendary Glenville football and track coach, The Ginn Academy stands as a beacon of excellence, a single-gender, all-male high school, committed to transforming young men into visionary scholars. Our mission is clear: to cultivate exemplary scholars who will not only reach their full potential but surpass it, becoming trailblazers in every field they pursue.

At The Ginn Academy, we empower scholars to recognize their innate genius and embrace their self-worth. Through unwavering guidance and mentorship, we instill patience, poise, and the confidence to seize every opportunity for success. Our pillars: **Scholarship, Leadership, and Service to All Mankind,** form the foundation upon which greatness is built.

To prepare scholars for life beyond high school, The Ginn Academy offers dynamic college and career pathways in areas such as **Exercise Science & Sports Medicine** and **Manufacturing Technologies,** providing real-world skills and experiences that open doors to higher education and high-demand careers. These opportunities make success not just a goal but a reality.

We don't just educate; we inspire. We prepare scholars to think globally, act boldly, and lead with integrity. The Ginn Academy is more than a school; it is a movement to cultivate the next generation of global leaders who will shape the 21st century and beyond.

James F. Rhodes High School

WEST REGION

~ Merging Rhodes College and Career Academy & Rhodes School of Environmental Studies / Welcoming New Tech West HS & Facing History HS ~

Overview

James F. Rhodes High School is entering a new era as four innovative schools, Rhodes College and Career Academy, Rhodes School of Environmental Studies, New Tech West, and Facing History New Tech High, merge to create a single, dynamic institution. This consolidation brings together diverse strengths and specialized programs under one roof, offering scholars a comprehensive education that prepares them for college, careers, and community leadership.

Rhodes High School prioritizes developing students who demonstrate respect, compassion, and self-awareness while cultivating creativity and problem-solving skills. The curriculum is designed to meet both academic and social-emotional needs, ensuring that every student is supported in reaching their full potential.

Students benefit from rigorous coursework and unique partnerships, including college and career preparation through Baldwin Wallace Upward Bound, workforce development opportunities, and Advanced Placement courses, College Credit Plus, and Tri-C Hi-Tech Academy. Rhodes also offers specialized pathways in education and training, information technology, interactive media, and media arts.

Reflecting the character of the Old Brooklyn community, Rhodes integrates local resources and experiences into its programs, particularly through its focus on life sciences, social sciences, and business. Fieldwork and mastery-based learning connect students to real-world applications, preparing graduates to thrive in post-secondary education and beyond.

John Marshall High School

SOUTHWEST REGION

~ Merging John Marshall School of Civic and Business Leadership, John Marshall School of Engineering, John Marshall School of Information Technology ~

Overview

John Marshall High School is redefining education by uniting three specialized schools: John Marshall School of Information Technology, John Marshall School of Engineering, and John Marshall School of Civic and Business Leadership, into one dynamic school. This merger creates a powerful blend of programs that prepare scholars for success in college, careers, and leadership roles.

As Ohio's first high school focused on computer science, John Marshall offers an early college curriculum with Advanced Placement courses and College Credit Plus opportunities. Students can pursue IT pathways in software development, health IT, and cybersecurity, gaining skills that provide a competitive edge in today's digital world.

Scholars interested in engineering can engage in hands-on learning through the Design Lab and Maker Space Lab, building robots, designing energy-efficient cars, and exploring green technology. A rigorous curriculum fosters creativity, collaboration, and critical thinking through problem-solving.

CLEVELAND METROPOLITAN SCHOOL DISTRICT

Lincoln-West High School

SOUTHEAST REGION

~ Merging Lincoln-West School of Global Studies & Lincoln-West School of Science and Health ~

Overview

Lincoln-West High School will unite Lincoln-West School of Global Studies and Lincoln-West School of Science and Medicine to create a dynamic educational environment that prepares scholars to become globally competent and successful.

Scholars can gain the knowledge and hands-on experience that empowers them to excel in college and launch successful careers in healthcare. These career pathways will develop critical thinking, language proficiency, and ownership of learning through blended instruction, small-group learning, community-based projects, and strategic partnerships locally and globally.

Scholars will benefit from the school's diverse community, representing 11 countries, and where eight languages are spoken, guided by educators proficient in 14 languages. In partnership with the MetroHealth System, Lincoln-West High School is the only high school in Northeast Ohio to offer classes inside a hospital. Scholars can take advantage of internships at MetroHealth beginning in 11th grade, providing them with workplace experience in the fields of modern science, health, and medicine while still in high school.

This innovative approach addresses the lack of diversity in healthcare by preparing graduates to understand and serve patients within the context of culture, gender, sexual orientation, religious beliefs, and socioeconomic realities.
