EXECUTIVE SUMMARY

June 26, 2026

TO: School Board Members

THROUGH: Michael J. Burke, Superintendent *MJB*

FROM: Jamie Wyatt, Deputy Superintendent/Chief of Schools *JW*
Adam Miller, Ph.D., Chief of Performance Accountability *AM*

SUBJECT: FY26 STATEWIDE ASSESSMENT RESULTS RELEASE

On June 26, 2026, the Florida Department of Education (FLDOE) released the FY26 results of the Florida Assessment of Student Thinking (FAST) for grades 3 to 10 English Language Arts (ELA) and grades 3 to 8 Mathematics; BEST Algebra 1 and Geometry End-of-Course (EOC) Exams; Biology, Civics, and U.S. History End-of-Course Exams; and State Science Assessments.

The FAST assessments for ELA (VPK through grade 10 Reading) and Mathematics (VPK through grade 8 Mathematics) are progress monitoring (PM) assessments and are administered three times per year. The administration of PM1 occurs at the very beginning of the school year and is designed to provide a baseline score so that teachers can begin to track student achievement progress. PM2 is administered mid-year, and PM3 is the summative assessment of standards-based learning for the school year. Per the FLDOE, FAST data from FY23 to FY26 should not be compared with prior years' performance due to the change in standards from the Florida Standards Assessment (FSA) to the new FAST progress monitoring system.

In light of the new progress monitoring system, the FLDOE instructs parents that results from PM1 and PM2 are for informational purposes only, are used to identify areas that may need additional instruction or support and should not be considered student achievement designations. The present report provides a high-level summary of the Palm Beach (District-operated and Charter) performance data at the end of year (PM3) for FY24 to FY26 scores for similar school districts, and the state of Florida overall.

Palm Beach County students achieved strong results on their FY26 statewide assessments, with 62% of students in ELA and 63% of students in math scoring a level 3 or higher. This exceeded the statewide performance in both subject areas. This also represents a 12-percentage point increase in performance for both subject areas since the FAST assessment began in FY23.

FAST ELA

- Palm Beach performed higher than the State in grades 4 through 8 and 10 and similar to the State in students scoring level 3 or higher in ELA overall.
- Grades 4, 5, 8, and 10 showed the largest increases from FY25 in students scoring level 3 or higher among the Large Urban Districts; the highest increase occurring in grade 8 (56 to 64%).

- Palm Beach increased the percentage of students scoring level 3 or higher in grades 3-10 (combined) at a similar rate to the State and other Large Urban Districts from FY25 to FY26.
- Palm Beach decreased the number of grade 3 students scoring at Level 1 (at risk for retention) by 2 percentage points from 23 to 21%.

FAST Math

- The percent of Palm Beach students scoring level 3 or higher in Math overall exceeded the State by 2 percentage points and exceeded the state average in grades 3, 5, 6, and 8.
- Compared to the other Large Urban Districts, Palm Beach showed the largest increase in performance in grade 4 (+5 percentage points) and 5 (+7 percentage points) as well as showing the highest performance among the Large Urban Districts in grade 8 (68%).
- Grades 4 and 7 Math proficiency is not directly comparable between districts due to differences in acceleration practices.

BEST Algebra 1 and Geometry EOCs

- Palm Beach exceeded the State by 3 percentage points in Algebra 1 and Geometry.
- Performance in Algebra 1 increased by 4 percentage points from 62 to 66% at Level 3 or higher in FY26 compared to FY25, tied for highest among the Large Urban Districts.
- Performance in Geometry increased by 3 percentage points from 56 to 59% at Level 3 or higher in FY26 compared to FY25, exceeding both Miami-Dade and Broward in growth.

Statewide Science Assessment

- Palm Beach matched the State performance in Grade 5 and exceeded the State in Grade 8.
- Palm Beach increased performance in grade 5 (+6 percentage points) compared to FY25, tied for first in growth with Broward.
- Palm Beach increased performance in grade 8 (+4 percentage points) compared to FY25.

End-of-Course Exams

- Performance on the Biology EOC increased by 3 percentage points (72 to 75%) compared to FY25.
- Performance on the Civics EOC increased by 5 percentage points (72 to 77%) compared to FY25.
- Performance on the U.S. History EOC increased by 7 percentage points (66 to 73%) compared to FY25.
- Palm Beach exceeded the statewide performance in Biology and Civics and matched the state on the U.S. History EOC. Growth on the US History EOC exceeded that of the other Large Urban Districts.

Table 1: FY26 Number of Students Tested in Different Assessments

Assessment	Grade Levels	Students Tested
FAST ELA	3–10	108,262
FAST Mathematics	3–8	71,168
BEST Algebra 1 EOC	7–12	14,502
BEST Geometry EOC	8–12	14,514
Statewide Science	5 & 8	26,206
Biology EOC	8–12	13,493
Civics EOC	6–8	13,073
U.S. History EOC	9–12	12,525
