Hello MTSD Families!

There have been some statewide changes made to the vaccination schedule. These changes will take effect for the 2026-2027 school year. This will apply to **new** immunizations your child receives moving forward.

The changes are as follows and can be found on this chart:

Influenza Vaccination: Students in the preschool program are required to have their flu vaccine by November 30th.

**Any child not vaccinated by November 30th, may be excluded from the program until March 31st or until they receive the vaccination.*

MMR Vaccination: All students entering Kindergarten or above are required to receive 2 doses of the MMR vaccine with the first dose being given after 1 year of age.

Varicella: We can no longer accept parent reports of illness. Need proof with titers or physician diagnosis.

Tdap/Meningococcal ACYW: Now required upon entering 7th grade rather than 6th

**doses prior to 10 years of age are not acceptable*

If you have any questions about the changes, please contact your child's school specific nurse. If your child has any medical or religious exemptions, please reach out to their school nurse so that you can be directed to specific requirements based on these needs.

Thank you and have a healthy summer!

Sincerely,

MTSD School Nurses
