
If your child is just learning to read

1. Practice the sounds of language. "How many words can you say that sound just like bat?"
2. Help your child take spoken words apart and put them back together.
3. Practice the alphabet by pointing out letters wherever you see them and by reading alphabet books.
4. Read together every day. Spend time talking about stories, pictures and words.
5. Visit the library often. Story times, computers, homework help, and other exciting activities await the entire family.

The pledges found on the reverse of this page were created by a committee of parents and teachers to reflect the core values of our school and community. Thank you to all who contributed to the process of developing and refining these expectations.
