

To all the Turkey Foot Middle School Families,

I first want to say how excited I am to be joining TFMS as the new Principal of the school. We are working diligently to get things ready for the upcoming school year. I wanted to send out a message with some information that is important for the time leading up to the start of the school year.

Construction Project

The Board has approved a construction project that begins today and is anticipated for completion by August 7th tentatively (weather permitting). This will impact the Turkey Foot Middle School and Caywood Elementary Campus. There will be demolition of the Patton building on the campus. The building will be torn down and temporarily turned into a gravel or crushed stone parking lot. This demolition project may impact traffic flow of the campus, and we will share more information on that as it becomes available. Please be careful when driving on the Turkey Foot campus throughout July while heavy equipment and dump trucks are on campus.

Online Registration

Kenton County School District's Online Registration (OLR) is active and ready for you to complete the annual update. All families are asked to access OLR to verify and/or update student and household information. Also, OLR will take the place of the many documents acknowledged by parents/guardians at the beginning of each school year. It is important that this be completed for all students and will have to be done one time for each household.

Virtual Learning

If you are interested for virtual learning for your student for the 2026-2027 school year, an application must be completed and turned into the front office. Important reminder: Virtual Learning status does not roll over from year to year and a [new application](#) must be submitted and approved for the 26-27 school year. Students must meet all virtual learning criteria to qualify.

Website Update/Calendar

We have been working to update our school website. We have already started loading dates/times for upcoming events. We will work to keep this updated over time. The School Calendar is a great place to find information about the school and different offerings at TFMS.

Athletics

We have a newly appointed Athletic Director for the 2026-2027 school year. Tiffany Snider has been selected to be the athletic director at TFMS. She has put together a great website for extracurriculars. This website features the different clubs and sports along with schedules and important information. We as a school will be working to encourage all students to join a club or sport at school.

Parent and Community Involvement

Please consider joining our school PTO, the Indian's Club. It is a wonderful parent/teacher organization that works to support our teachers and students. They hold monthly meetings and this is a wonderful way to give back and be active in the school community! If you're interested please visit their website linked below.
