AS SUICIDE PREVENTION AWARENESS MONTH**

WHEREAS, September is Suicide Prevention Awareness Month — a time to raise awareness on this stigmatized, and often taboo, topic;

WHEREAS, the goal is ensuring that students, families and staff members have access to the resources they need to discuss suicide prevention, to seek help and provide support to those suffering from this mental illness;

WHEREAS, in addition to shifting public perception, this month is used to spread hope and vital information to people affected by suicide ideation or mental illness and those supporting them;

WHEREAS, suicidal thoughts, much like mental health conditions, can affect anyone regardless of age, gender or background;

WHEREAS, suicide is often the result of an untreated mental health condition and suicidal thoughts, although common, should not be considered normal and often indicate more serious issues;

WHEREAS, all children and youth learn best when they are healthy, supported, and receive mental health services, that meet their individual needs;

WHEREAS, it is imperative that society emphasize the mental health needs of children and youth and invest in mental health education as a top priority;

WHEREAS, the services provided by the District's social workers, clinical counselors and therapists are multi-faceted, combining psychological, social and practical elements;

WHEREAS, mental health providers collaborate with teachers and other educators to assist students in managing and overcoming crisis due to loss or trauma, provide students the tools to thrive emotionally and create resilient individuals; and

WHEREAS, mental health providers seek to identify and utilize community resources, which can enhance and complement comprehensive school counseling programs and help students become productive members of society and learn to manage their mental health.
