Notes:

- Prices are published by awarding bodies and cannot be changed by the centre. ROM can take up to 20 calendar days to complete while Priority ROM can take up to 15 calendar days to complete.
- It is advisable to make applications for all units/ components within a qualification at the same time as the initial application. These will be charged for separately.
- If a ROM leads to an **amendment** of a unit or assessment grade, **there will be no charge**. In this instance, if any payments have been received, these will be refunded via ParentPay
- Priority review of marking is an expedited service primarily used when a student's pending university or college place depends on the result. Awarding bodies strongly advise candidates to inform their university or college choices that a review of results has been requested as this may mean the candidate's place can be put on hold until the review has been completed.
- Submissions can only be processed by the Exams Office. **No submissions will be processed without a student-signed consent form AND receipt of payment (if applicable).**

Remember, there is **no grade protection** for reviews of marking. This means that learners' marks and subject grades may be lowered, confirmed or raised as a result.
