

NHCS Policies Addressing GenAI Use

Click the policy titles below to access the full policy

3220: Technology in the Educational Program

The board encourages the use of generative AI by school system employees and students to expand their skills and capabilities and to prepare students for a future AI-enhanced world.

All school system employees and students should be AI literate, that is, have an understanding of basic AI principles and applications, the skills to recognize when AI is employed, and awareness of its limits. The superintendent or designee shall develop a comprehensive AI literacy training strategy that involves training all employees and students in the effective, ethical, and safe use of generative AI tools. The training should equip employees with the necessary knowledge to effectively employ generative AI in their work while ensuring its safe and responsible integration into classroom instruction.

3225/4312/7320: Technology Responsible Use

All students, parents, and employees will be informed annually of the information in this policy and in any applicable generative artificial intelligence (AI) guidelines developed in accordance with policy 3220, Technology in the Educational Program. Prior to using school system technological resources, students and employees must agree to comply with the requirements of this policy and the generative AI guidelines. In addition, the student's parent must consent to the student accessing the Internet and must sign a copy of the generative AI guidelines.

Additional Policies to Consider

3226/4205: Internet Safety

4310: Integrity and Civility

4329: Bully and Harassing Behavior Prohibited
