Part 1:

- Print [this excerpt from *Give Me Liberty! An American History, Volume 2*, by Eric Foner](#). (Note: this is my college textbook that I photocopied, I bought used, don't judge the highlighting/underlining - it's not all mine!)
- **Read and annotate** (by hand - no digital allowed) the excerpt. Annotations should show your thought process, connections between things you know, questions you have about the assertions, analyses, etc.
- **Create a document with the correct title (your last name, title of the assignment) and take detailed notes in outline format.** [This is an example of what your notes should look like.](#)

Part 2:

- Find a supplemental material (map, article, image, etc) that relates to one section of the reading.
- Write a paragraph explaining what you found and how it relates to what you learned.
