

The Santa Cruz Valley Union High School District is committed to providing high quality instruction and well-rounded programs for our students. A strong educational system and a positive school atmosphere for the youth have a positive impact on the community and its residents. To improve SCVUHSD's mission of putting our youth first we are asking for the support of the community in passing a Maintenance and Operations Override.

The district is seeking a 15% Maintenance and Operations Override that will provide approximately \$430,000 in additional funding. A "YES" vote would allow our District to maintain smaller class sizes, provide competitive salaries to recruit and retain teachers; maintain necessary programming such as Band, Art, and Athletic programs. The additional funding will allow the district to provide students a well-balanced school experience.

Your continued support is needed to help make our school and our children's futures a priority. Great schools help make great communities! Vote "YES" and help us provide a strong educational experience for our youth.
