Re: Request to surplus and recycle obsolete and outdated items for FY2027

Items generally fall into the following categories:

1. Shop and custodial equipment.
2. Electronics and other items, such as ipads, laptops, desktop computers. These items may also be made available for sale to staff, students or the public along with vendors who deal in surplus electronics.
3. Inventory items from Technology, Transportation, Maintenance and Central Warehouse.
4. Appliance and furniture items.
5. Uniforms and related items. These may also be made available for sale to staff, students or the public.

Items will be processed throughout the year. Items sold will normally be listed on PublicSurplus.com with exceptions as noted above. The District from time to time may use alternate online auction sites such as Ebay.

Items may also be made available to other School Districts, Government entities or Non-Profits if requested and with approval from The Associate Superintendent for Instructional Support.

Vehicles and other high value items will be presented to the board for approval prior to being processed.

Any items not sold or not in good working shape will be recycled or disposed of per district policy. This may include parting out some items to the Technology and Maintenance Departments for future repairs.
