As your elected representatives on the Casa Grande Union High School Governing Board, we ask for your support in joining a bi-partisan movement and vote “Yes” to maintain current funding levels for our District. For generations, voters in our community have supported the needs of the District in voting for these vital funds to provide for high school security officers, quality career and technical programs, and be competitive in attracting quality staff in a national teacher shortage.

Our high schools are the most visible organizations in our community and serve thousands of families. The success of the District in developing award-winning programs in JROTC, FFA, DECA, CTE, Band, and Drumline shows that we are putting your investments to good use. Our recent state championships in cheerleading, football, and a runner-up in softball demonstrate our community can compete at high academic and extra-curricular levels. Your “YES” vote will ensure these sources of community pride will continue into the future.

Our Governing Board is united in asking you to support this continuation of current funding levels. This vote will maintain current levels of taxation and NOT increase your taxes. We appreciate your support.

Please vote “Yes.”

CGUHSD Governing Board
