Dear Future 4th Grader, June 9, 2026

Welcome to 4th Grade! I am so excited to meet you and begin a wonderful year together. As you enjoy your summer vacation, I wanted to send a quick note to tell you how excited I am to welcome you to our Science Homeroom in September!

Fourth grade is a very special year because you will have some exciting new responsibilities and experiences. One of the biggest changes is that you will have your very own locker! You will also begin learning how to switch classes and work with multiple teachers throughout the day.

At first, these changes may seem a little big, but don't worry, I will be there every step of the way to help you learn the routines, stay organized, and build confidence as you grow into successful 4th graders.

I cannot wait to teach you science! Together, we will ask questions, explore the world around us, conduct investigations, make discoveries, and learn about amazing scientific ideas. Science is all about being curious, trying new things, and never being afraid to ask questions.

As you begin your journey as a big and bold 4th grader, remember that it is okay to make mistakes, try something new, make new friends and challenge yourself. Every day is a chance to learn, grow, and become the best version of yourself. I am honored to be part of your journey and look forward to celebrating your successes throughout the year.

For now, enjoy your summer! Read a good book, spend time with family and friends, explore nature, and make wonderful memories.

Cheers to Summer! See you in September!

Mrs. King
