April Staff Member of the Month

MrS Tammy Wall, Special Education Teacher

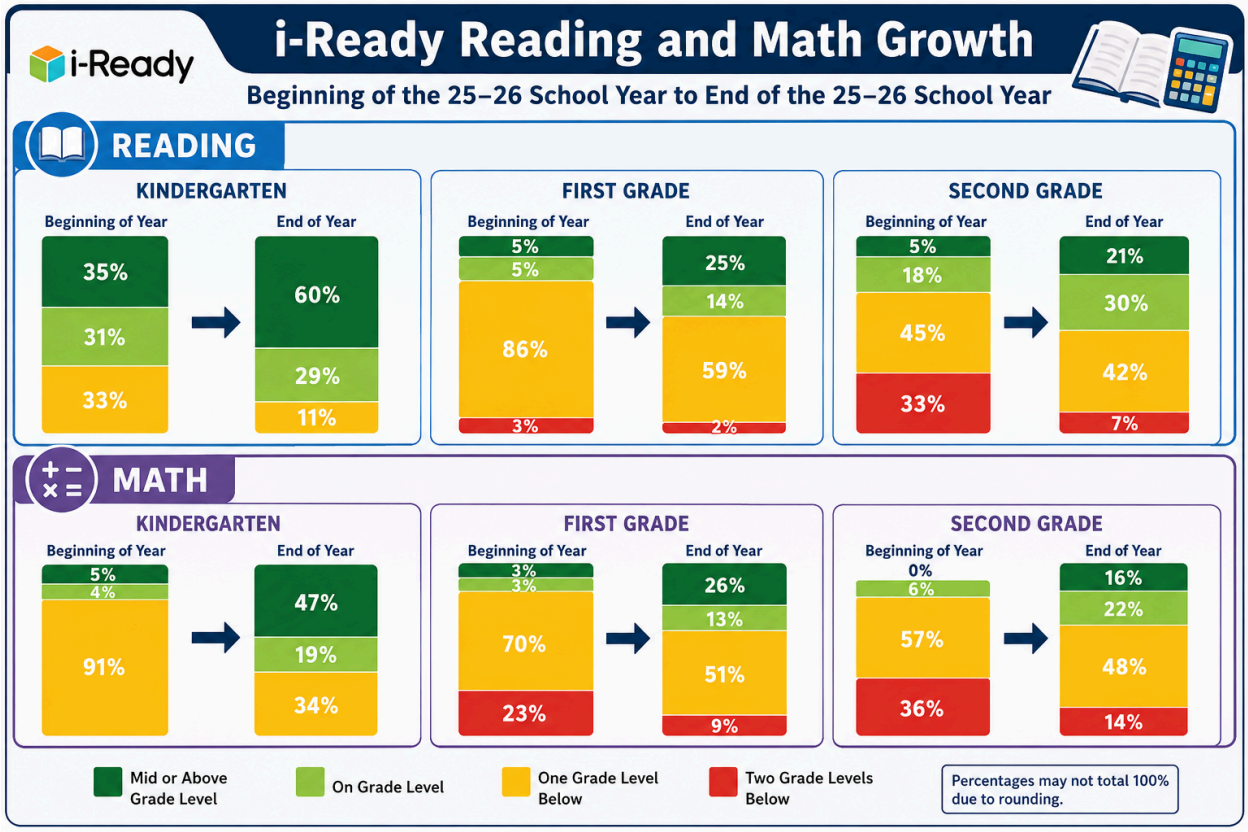

Congratulations to Ms. Heather McDaniel!

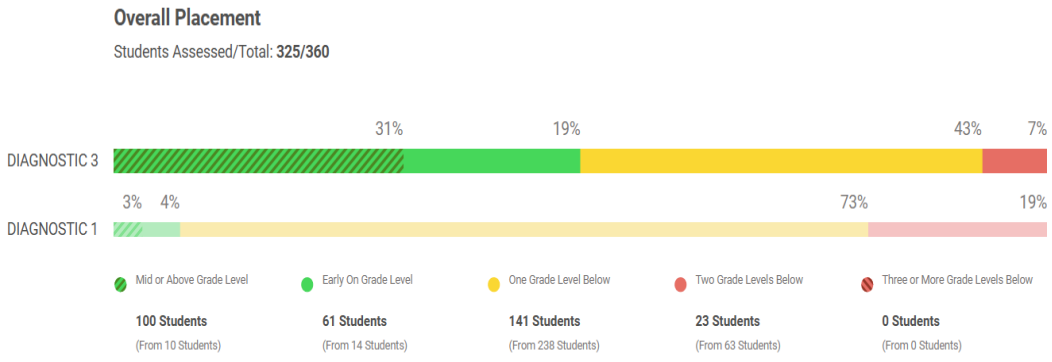

Kindergarten Graduation was a Success!

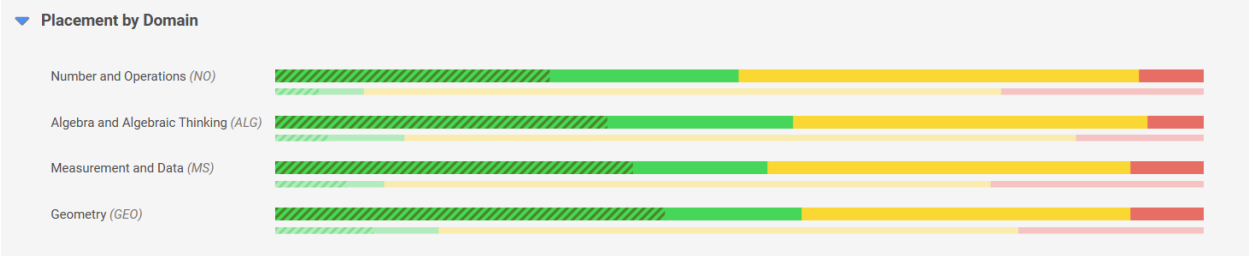

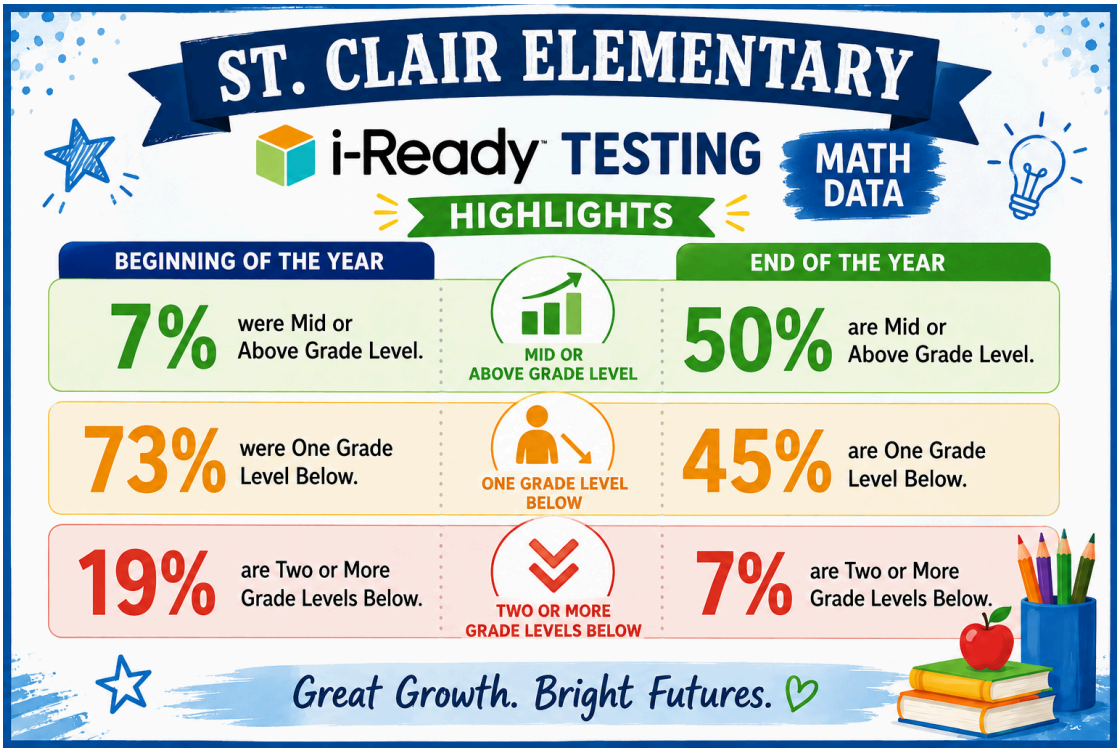

Final Diagnostic Testing of the Year for 2025-2026

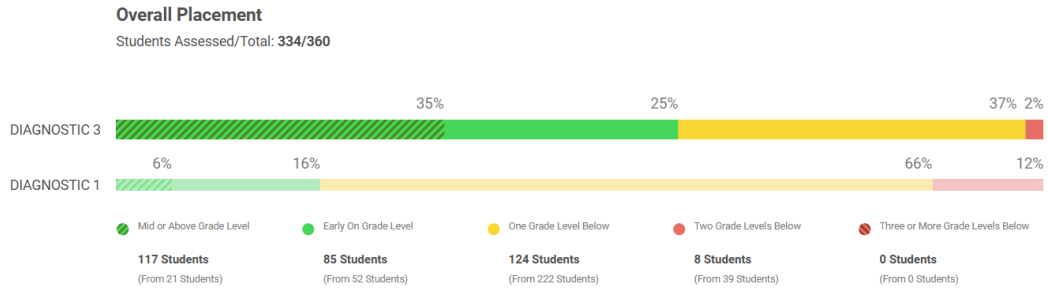

Building Math Data

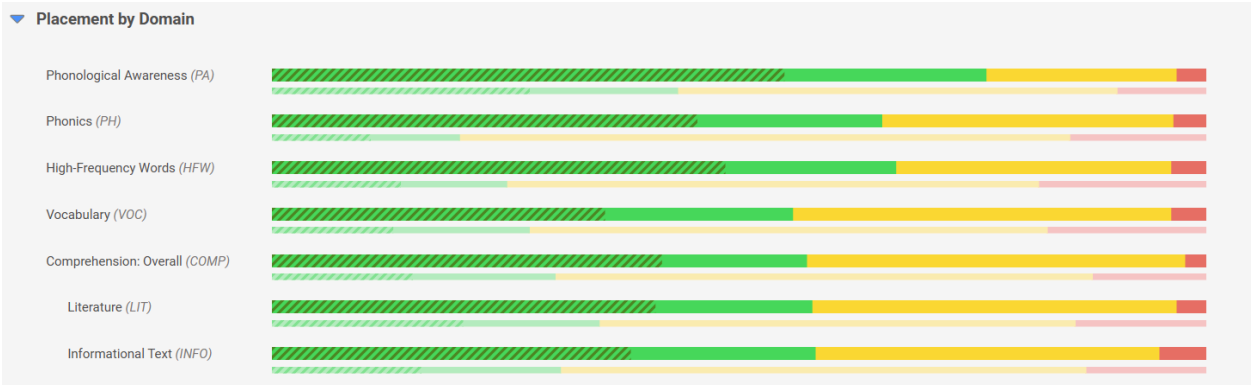

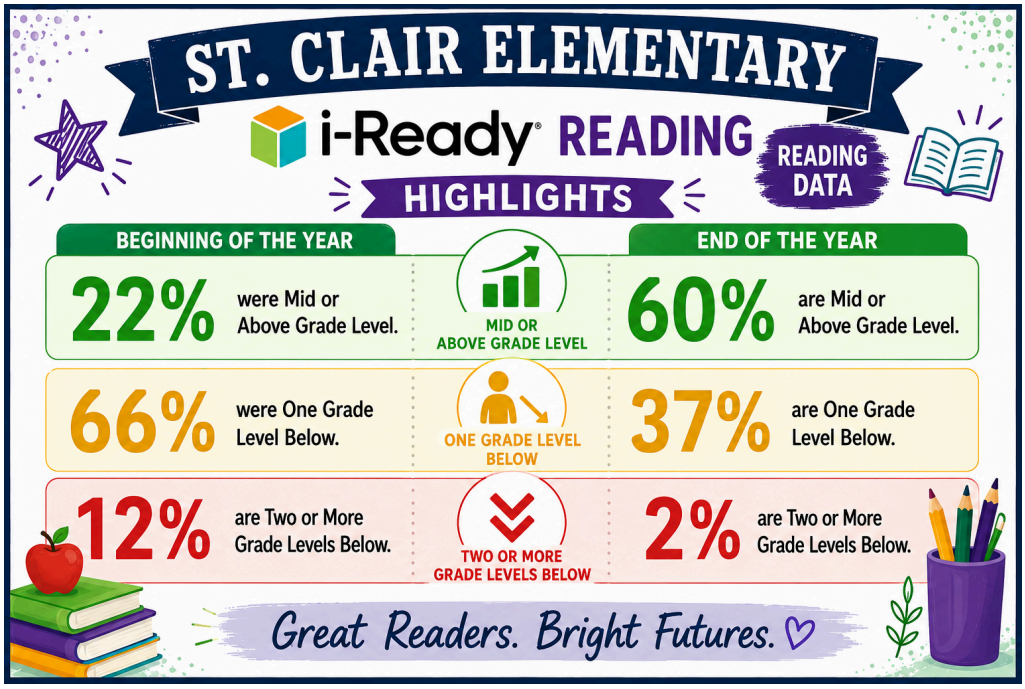

Building Reading Data

Preschool News!

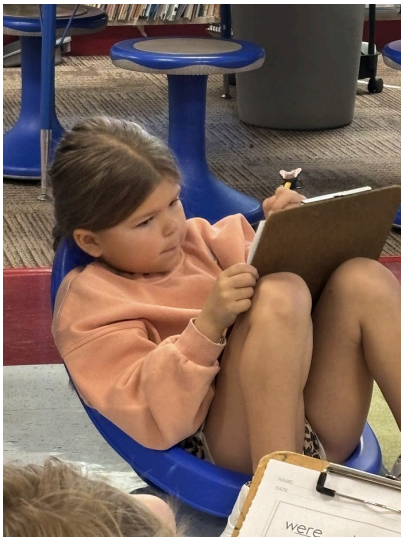

Preschoolers enjoyed our annual field trip to Scenic Regional Library to learn about all the neat things the library has to offer and to find out about the Summer Reading Program. We are busy with fourth quarter testing, finishing up our Heggerty Phonics lessons, and doing lots of Spring crafts. We look forward to seeing our preschoolers make the transition to kindergarten. It has been a wonderful year seeing our students grow and mature. We look forward to seeing them as kindergartners and be excited to learn.

Kindergarten News!

In Kindergarten we are learning about the Earth, (recycling, composting, and pollution), growing grass and other plants, and our butterflies are in their chrysalises and should hatch this week. We are also getting ready to start our last unit in CKLA.

First Grade News!

We have just started Unit 7 in Skills, which is our final Unit. We are learning all about parts of Speech to help enhance our Sentence Writing. We are enjoying reading all about Martez and Kay, as they venture across Mexico, in our readers. We just wrapped up our final Unit in

Knowledge. This month we ventured across America as we headed west with the great explorers such as, Daniel Boone, Lewis and Clark as well as Sacagewea.In Math we are sharpening our Problem Solving Skills, as we hit our mid way point in our final unit! This month we also took a break from learning and explored Faust Park! We loved learning all about the Butterflies and taking a ride on the famous Carousel. After those adventures, we had some fun on the playground and had a picnic lunch! There were smiles for miles the entire time!!!

Second Grade News!

This month has been full of meaningful learning experiences and exciting opportunities for our students. We completed our Knowledge Unit on Immigration. As a culminating activity, students wrote letters to their families as though they were immigrants arriving in a new country. This helped them make strong personal connections while deepening their understanding of the challenges and emotions immigrants experienced.In Skills, we focused on identifying topic sentences and reviewed the parts of a sentence to strengthen our writing foundation. Students also finished reading *The War of 1812*, building their background knowledge in early American history. In math, we wrapped up our unit on two-dimensional shapes and began exploring arrays as an introduction to multiplication. We have also started introducing fractions, and students are beginning to understand how parts make up a whole. One of the highlights of the month was our field trip to Busch Stadium, where students enjoyed a guided tour and learned more about this local landmark. Afterward, we spent time at Queeny Park, where students had lunch and enjoyed playing on the all-inclusive playground. Students also worked hard to complete and publish their own stories. We celebrated their efforts with a publishing party, where each student had the opportunity to share their writing with the class. It was a proud and memorable moment for everyone. Overall, it has been a productive and engaging month filled with academic growth and memorable experiences.

Music News!

PreK and kindergarten musicians are connecting emotions to music through our literacy music unit. Kindergarten musicians are also learning about being performers and are preparing for their graduation performance. First grade musicians are learning about ensemble sizes and working on rhythm reading fluency. Second grade musicians are learning about the treble clef, music staff, and treble clef notes.

PE News!

In P.E. class we completed our Team Sports unit while practicing good sportsmanship during team games. Kindergarten and Pre-School participated

in Scooter Team Relays. Second grade and First grade participated in a game of Scooter Soccer. We also played a Team Soccer game that involved the red team using teamwork to score in the red goal and the blue team using teamwork to score in the blue goal. For the rest of May, we are working on Field Day Event practice. When students come to P.E. class we will discuss my Field Day expectations and activities. We will practice two of the events: Egg on a Spoon and Ring Toss. Field Day Event practice helps students know what to expect at each event, how to participate, and how to complete the events with confidence. I prompt Field Day as an end of the year physical activity celebration with our classmates where we get to have high energy and show our school spirit. On May 18th, our students will get to participate in 6 outside field events, bounce house time in the gym, and sidewalk chalk in the bus line while enjoying a snow cone from Dana's Shaved Ice. It's going to be a great day!

Calendar of Events
