

New for the 2026–2027 School Year: Athletic Medical Forms Can Now Be Uploaded Through Genesis Parent Portal

Tenaflly Athletics is excited to introduce a new, more convenient way for families to submit athletic medical paperwork. Beginning with the **2026–2027 school year**, parents/guardians can now **upload required athletic health forms directly through the Genesis Parent Portal** as part of the athletic registration process.

To be medically eligible to participate in athletics, the Athletic Office requires the following forms:

- [Preparticipation Physical Evaluation Medical Eligibility Form](#) (*required annually*)
- [NJ Department of Education Health History Update Questionnaire \(HHQ\)](#) (*required prior to the start of every athletic season*)
- [Asthma & Allergy Action Plan](#) (*required for student-athletes with asthma and/or severe allergies*)

Important Reminders

- The **Preparticipation Physical Evaluation Medical Eligibility Form** is valid for **one year** and must be submitted annually to maintain athletic eligibility.
- The **Health History Update Questionnaire (HHQ)** is required **at the beginning of every sports season**, even if your student's annual physical is still valid. Student-athletes participating in multiple sports throughout the school year must submit a new HHQ before the start of **each** season (Fall, Winter, and Spring).
- Student-athletes with **asthma and/or severe allergies** must also submit a current **Asthma & Allergy Action Plan**.

About the Physical Forms

For your convenience, the Athletic Department provides the complete **Athletic Preparticipation Health History Form** and the **Preparticipation Physical Evaluation Examination Form** that your healthcare provider will use when conducting your student's physical examination.

These forms are for your healthcare provider's use and do not need to be returned to the Athletic Office.

The **only physical form that must be uploaded to Genesis** is the **Preparticipation Physical Evaluation Medical Eligibility Form**, which confirms that your student-athlete has been medically cleared to participate.

Once submitted through Genesis, all required medical documentation will be reviewed by our Athletic Trainer prior to clearance for participation.

Uploading these forms through Genesis helps streamline the clearance process, reduce paperwork, and ensure your student-athlete is ready for the upcoming athletic season.

We appreciate your cooperation and look forward to another outstanding year of **Tenaflly Tiger Athletics!**
