

Coverage for preventive medications

Learn about preventive medications covered at 100% under your employer plan

Taking preventive medications prescribed by your doctor can help you manage any health conditions you have and avoid serious illness. That's why Security Health Plan's pharmacy benefit on high-deductible health plans may include special coverage for preventive medications. These medications may include drugs to reduce the risk of blood clots or medications to manage blood sugar. The medications identified as preventive are maintained by Optum Rx Clinical Services and adopted by Security Health Plan.

Save on preventive medications

Your employer health plan covers certain preventive medications at 100%, meaning no copay or cost to you. Preventive medications covered at 100% are listed in Security Health Plan's Formulary Guide for large employers.

To see if your medications are eligible:

- Visit www.securityhealth.org/prescription-tools
- Select "Employer search" under For members with employer coverage
- Select "Covered drugs" under Large employer
- Click "Comprehensive formulary" to view a list of covered medications
- Search for your medication name within the formulary document

If your medication is preventive, a PV will be listed in the right column under Limits/Required.

Drug Name	Drug tier	Limits/Require
SILENOR	3	BP; QL
SODIUM OXYBATE SOLUTION 500 MG/ML ORAL	4	PA; SP; QL
SUNOSI TABLET 150 MG ORAL	2	PA; QL

Please note: The preventive buy-up option is an additional benefit that large employers may choose to offer their employees at an extra cost to the employer. Please refer to your plan documents for coverage information.
